

SUBJECT INDEX

- ACIDOSIS.** Severe lactic acidosis in a case of nitroprusside resistance, 119
- AIRWAY OBSTRUCTION.** Chronic upper airway obstruction; methods of detection and recognition, 9
Practical application of the flow-volume loop, 39
- ANGIOCARDIOGRAPHY.** Serial assessment of doxorubicin cardiotoxicity in pediatric patients with quantitative radionuclide angiocardio-graphy, 327
- ANTIBIOTICS.** In vitro activity of mezlocillin and azlocillin compared with that of four other penicillins and two aminoglycosides, 311
- APNEA.** Obstructive sleep apnea, 3
- ARTHRITIS, RHEUMATOID.** Methotrexate in the treatment of rheumatoid arthritis; pilot study, 305
- ASTHMA.** Management of difficult asthma, 33
- AUTOIMMUNE DISEASES.** Recent advances in autoimmunity, 73
- BILIARY CIRRHOSIS.** Nonhomogeneous copper distribution in primary biliary cirrhosis, 101
- BLEOMYCIN.** Successful treatment of bleomycin lung, 97
- CAROTID ARTERIES.** Accuracy of carotid compression tonography in the diagnosis of carotid artery stenosis; correlation with arteriography in 300 patients, 79
- CORONARY ARTERIES.** Normal and abnormal anatomy of coronary arteries, 123, 126, 131
- CORONARY ARTERIOGRAPHY.** Clinical applications, 162, 164, 166, 168, 253
Clinical syndromes and their arteriographic correlations, 198, 200, 206, 210, 212
Imaging systems—applications, limitations, and new developments, 171, 174, 175, 178, 180
Interpretive problems in coronary arteriography, 133, 137, 140, 145, 147
Methods for evaluating left ventricular function, 215, 218, 222, 225
Percutaneous transaortic coronary artery angioplasty, 228, 231, 235, 238
- Prognostic role of coronary arteriography, 183, 185, 187, 190, 192, 195
Surgical considerations, 243, 246, 249, 251
Technical considerations and complications, 150, 152, 157, 160
- DOXORUBICIN.** Serial assessment of doxorubicin cardiotoxicity in pediatric patients with quantitative radionuclide angiocardio-graphy, 327
- HYPERTENSION.** Aortorenal vein graft stenosis causing recurrent hypertension; repair with a temporary shunt, 321
- HYPERTENSION, PULMONARY.** Primary pulmonary hypertension in adults, clinical features, catheterization findings and long-term follow-up; 275
- IMMUNOLOGIC DISEASES.** Plasmapheresis therapy of immunologic disease; report of nine cases and review of the literature, 53
- JEJUNUM.** Irreversible chronic renal failure following jejunioleal bypass, 47
- KIDNEY FAILURE.** Irreversible chronic renal failure following jejunioleal bypass, 47
- LUNG.** Successful treatment of bleomycin lung, 97
- LUNG DISEASES.** The diagnosis and management of chronic obstructive lung disease, 17
- LYMPHOMA.** Oculomotor palsy from malignant lymphoma, 333
- METHOTREXATE.** Methotrexate in the treatment of rheumatoid arthritis; pilot study, 305
- MYOCARDIAL REVASCULARIZATION.** Myocardial revascularization in The Cleveland Clinic Foundation—1979, 255
- NECROSIS.** Ultrasonography in the diagnosis of obstructive uropathy caused by papillary necrosis, 109
- NELSON SYNDROME.** Nelson's syndrome; a new look, 299
- PERITONEAL DIALYSIS.** Continuous ambu-

latory peritoneal dialysis, 285
PLASMAPHERESIS. Plasmapheresis therapy of immunologic disease; report of nine cases and review of the literature, 53
PROCTITIS. Acute gangrenous proctitis, 295
PULMONARY ARTERY. Primary sarcoma of the pulmonary artery, 115
PULMONARY FUNCTION. Office assessment of pulmonary function, 25
PULMONARY VALVE. Pitfalls in interpretation of the pulmonary valve echogram in patients with congenital heart disease, 261
SARCOMA. Primary sarcoma of the pulmonary artery, 115

SKIN. Sporotrichoid *Mycobacterium marinum* skin infection treated with minocycline hydrochloride, 339
TONOGRAPHY. Accuracy of carotid compression tonography in the diagnosis of carotid artery stenosis; correlation with arteriography in 300 patients, 79
ULTRASONICS. Ultrasonography in the diagnosis of obstructive uropathy caused by papillary necrosis, 109
VENTILATION. Prolonged mechanical ventilation; an approach to weaning, 89
