TABLE OF CONTENTS

MEDICAL GRAND ROUNDS

Ultrasound and alendronate: New tools for osteoporosis screening and treatment 398

Ultrasound should make osteoporosis easier to diagnose, and alendronate should make it easier to treat.

R.P. TONINO*

EDITORIAL

Enthusiasm for ultrasound for osteoporosis screening is premature 403

Ultrasound shows promise for osteoporosis screening, but before the medical community embraces it, many questions need to be answered.

B.J. RICHMOND*

INTERNAL MEDICINE BOARD REVIEW

Upper gastrointestinal bleeding in a 41-year-old woman 407

What is the likely cause of this patient's symptoms?
A self-quiz on a clinical case.

K.R. KONGARA AND D.L. CONWELL

MEDICINE IN THE NEWS

Hepatitis C update: Implications of the blood transfusion "lookback" 412

In the coming years, physicians will have to inform up to 300,000 blood recipients that they may have contracted hepatitis C.

Z.M. YOUNOSSI AND P.E. CANUTO

CONTINUED ON PAGE 396

CONTINUED FROM PAGE 395

CURRENT DRUG THERAPY

Lipid formulations of amphotericin B 423

New lipid formulations of amphotericin B are less nephrotoxic and can be given in higher doses than standard formulations, but improved efficacy has not been proved. With an illustration explaining the pharmacokinetics of these preparations.

E. JONES AND M. GOLDMAN

HEART FAILURE UPDATE

Our new understanding of heart failure: The role of beta-blockers in treatment 428

Beta-blockers can stop the downward spiral of heart failure by improving the biology of the myocyte. With an illustration showing the abnormal remodeling process in heart failure.

E.J. EICHHORN

REVIEW

Rheumatologic manifestations of HIV-1 and HTLV-I infections 436

HIV, the new great mimic, is protean in its clinical manifestations, which can include rheumatologic syndromes.

D. VASSILOPOULOS AND L.H. CALABRESE

UPCOMING FEATURES

■ Prescribing for elders

Individualizing drug therapy for elderly patients is the key to success.

■ Evaluating the sleepy patient

Daytime sleepiness is common and potentially serious. When should you send a patient to the sleep lab?

■ Sickle cell disease: Issues for internists

New developments in understanding the natural history and complications of sickle cell disease.

■ Prostate cancer screening

Until benefit of screening is proved, physicians should focus on high-risk patients.
