Topics and editors for supplements to the *Cleveland Clinic Journal of Medicine* are determined by the *Journal's* editor-in-chief and staff. Supplement editors are chosen for their expertise in the topics discussed and are responsible for the scientific quality of supplements, including the review process. The *Journal* ensures that supplement editors and authors fully disclose any relationships with industry, including the supplement underwriter. For full guidelines on grant-supported *Journal* supplements, go to www.ccjm.org/pdf/guidelines.pdf.

*Dr. Mills has indicated that he has no commercial affiliations or interests that pose a potential conflict of interest with his role as editor of this supplement. For disclosures from individual authors, see the first page of their respective articles.
