Examine before ordering: 234 An algorithm unchanged by new tests

I have always been irked when doctors reflexively order panels of immunologic tests when evaluating patients with "arthritis."

B.F. MANDELL

1-MINUTE CONSULT

Should I order an anti-CCP antibody test 249 to diagnose rheumatoid arthritis?

This test is highly specific, though it may be redundant for a patient who has documented rheumatoid arthritis and who is seropositive for rheumatoid factor.

THE CLINICAL PICTURE.....

Purpuric lesion on the elbow 253

A 75-year-old man developed a painful lesion on the elbow several days after starting warfarin therapy. What is the most likely diagnosis?

N.K. VOORE, A. RAHMAN, S. SANNA, AND H. BAHRAIN

THE CLINICAL PICTURE.....

Purple urine in a woman 255 with chronic kidney disease

Although purple urine itself is usually considered benign, it should prompt an evaluation for urinary tract infection.

Synthetic legal intoxicating drugs: 258 The 'incense' and 'bath salt' phenomenon

These products are gaining in popularity among drug abusers, because they are cheap and produce a powerful high. They may not be detectable on standard urine drug screening.
