TABLE OF CONTENTS

FROM THE EDITOR

The generalist, the specialist, and the patient with chronic kidney disease 273

Comanagement of patients who have a chronic disease is often a challenge.

B.F. MANDELL

COMMENTARY

Niacin's effect on cardiovascular risk: Have we finally learned our lesson? 275

For now, the renaissance of niacin as a means of lowering cardiovascular risk is only wishful thinking.

S.J. NICHOLLS

THE CLINICAL PICTURE.....

Syncope during a pharmacologic nuclear stress test 279

A dangerous interaction can arise if the culprit drug is overlooked because it is part of a combination product.

I. BUITRAGO, D. WOLINSKY, AND C.R. ASHER

THE CLINICAL PICTURE.....

An 18-year-old woman with hepatic cysts 281

Echinococcus granulosus is a parasitic tapeworm; humans become infected when they ingest the eggs.

C.H. HO AND J. LIN

CME CREDIT **IM BOARD REVIEW**..... 283

A 20-year-old woman with fatigue and palpitations

Her blood pressure is 92/48 mm Hg, and her electrocardiogram shows abnormalities. What is going on?

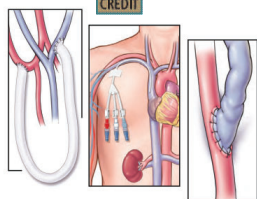

C.H. HO, K.E. LEWIS, J.L. JOHNSON, AND L.M. OPAS

CME CREDIT **REVIEW**..... 289

Managing advanced chronic kidney disease: A primary care guide

Primary care physicians can manage most aspects early on, but as it progresses, more care should shift to a nephrologist.

A. SAKHUJA, J. HYLAND, AND J.F. SIMON

CME CREDIT **ADDRESSING DISPARITIES IN HEALTH CARE**..... 301

Heart failure in African Americans: Disparities can be overcome

African Americans are disproportionately affected by heart failure, but discrepant outcomes can be minimized.

A. SHARMA, M. COLVIN-ADAMS, AND C.W. YANCY

REVIEW..... 312

Optimizing transitions of care to reduce rehospitalizations

Factors that contribute to poor care transitions, programs that improve them, and strategies for successful transitions.

J. LI, R. YOUNG, AND M.V. WILLIAMS

DEPARTMENTS..... 278

CME Calendar

Directions for CME

Inside back cover

To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.
