## SUBJECT INDEX

Entries set in *italics* refer to specific titles of articles.

- Angiography, renal, blood pressure reduction as aid to, in hypertensive patients, 83
- Announcements, 136, 192
- Artery, internal carotid, bilateral thrombosis of, 174
- Artificial hibernation: Technic, and observations on seriously ill patients, 109*
- Benign ulcers of greater curvature of stomach: Report of two cases, 27*
- Bilateral thrombosis of internal carotid artery: Report of three cases, 174*
- Blood pressure reduction as aid to renal angiography in hypertensive patients, 83*
- Blood volume determinations in operative period: Convenient, simplified procedure, 124*
- Bunts Institute Courses, tentative programs  
Postgraduate  
    current therapy in pediatric practice, 133  
    for general practitioners, 49, 50  
    newer developments in gastroenterology, 193  
    pathology and pathologic physiology in internal medicine, 53
- Burnett's syndrome, *see* milk-alkali syndrome
- Cancer of thyroid, treatment with desiccated thyroid, 161
- Carcinoma, ovarian, "curability" of, 66
- Cardiovascular disease, newer therapeutic tools in, 93
- Changes in fundus oculi in relation to hypertension, 139*
- Children, gifted, problems of, 106
- Chronic subdural hematoma: Historical review and analysis of 60 cases, 150*
- Chronic ulcers of leg of venous origin, 3*
- Clinical use of serum iodine determination, 61*
- Contrast medium, 50 per cent Urokon sodium used as intravenous, study based on 250 cases, 157
- "Curabilit<sup>o</sup>" of ovarian carcinoma, 66
- Desiccated thyroid, treatment of cancer of thyroid with, 161
- Endocrinology, clinical, recent developments and trends in, 33
- Fifty per cent Urokon sodium as an intravenous urographic contrast medium: Study based on 250 cases, 157*
- Foreign bodies of dental origin in maxillary sinus, 100*
- Fundus oculi, changes in, in relation to hypertension, 139
- Graves' disease, study of thyroid failure after radioiodine therapy for, 164
- Guest speakers, 50, 57, 134, 194
- Hematoma, chronic subdural, historical review and analysis of 60 cases of, 150
- Hemigastrectomy with subdiaphragmatic vagotomy for average case of chronic duodenal ulcer, preliminary observations on, 172
- Hibernation, artificial, technic, and observations on seriously ill patients, 109
- Hydrocortisone, with neomycin in treatment of external otitis, 10
- Hyperparathyroidism, and milk-alkali syndrome, problems in differentiation of, 184
- Hypertension, changes in fundus oculi in relation to, 139
- Hypertensive patients, blood pressure reduction as aid to renal angiography in, 83
- Hypertrophic pyloric stenosis in adult: Discussion of etiology and report of case, 76*
- Inflammation, maxillary sinus, management of, 23
- Iodine, serum, determination of, clinical use, 61
- Laryngectomees, rehabilitation program for, illustrated by four cases, 70
- Management of inflammation of maxillary sinus, 23*
- Maxillary sinus  
    foreign bodies of dental origin in, 100  
    management of inflammation of, 23
- Milk-alkali (Burnett's) syndrome and hyperparathyroidism, problems in differentiation, 184

## SUBJECT INDEX—(Continued)

- Neomycin, with hydrocortisone in treatment of external otitis, 10
- Newer therapeutic tools in cardiovascular disease*, 93
- Otitis, external, treatment with neomycin and hydrocortisone, 10
- Ovarian carcinoma, "curability" of, 66
- Postgraduate courses, *see* Bunts Institute Courses
- Preliminary observations on hemigastrectomy with subdiaphragmatic vagotomy for average case of chronic duodenal ulcer*, 172
- Problems in differentiation of milk-alkali (Burnett's) syndrome and hyperparathyroidism, illustrated by two case reports*, 184
- Problems of gifted children*, 106
- Publications by staff, listings of, 47, 89, 131, 190
- Radioiodine therapy, study of thyroid failure following use of, for Graves' disease, 164
- Rehabilitation program for laryngectomees, illustrated by four case reports*, 70
- Sarcoma botryoides: Report of two cases and discussion of nomenclature*, 16
- Serum iodine determination, clinical use of, 61
- Some recent developments and trends in clinical endocrinology*, 33
- Stenosis, pyloric, hypertrophic, in adult, 76
- Stomach, benign ulcers of greater curvature of, 27
- Study of thyroid failure following radioiodine therapy for Graves' disease*, 164
- Therapeutic tools, newer, in cardiovascular disease, 93
- Thyroid
- cancer, treatment with desiccated thyroid, 161
  - failure, after radioiodine therapy for Graves' disease, study of, 164
- Treatment of cancer of thyroid with desiccated thyroid*, 161
- Thrombosis, bilateral, of internal carotid artery, 174
- Ulcer
- benign, of greater curvature of stomach, report of two cases, 27
  - chronic, of leg, of venous origin, 3
  - duodenal, chronic, hemigastrectomy with subdiaphragmatic vagotomy for average case of, 172
- Urokon sodium, 50 per cent, as intravenous contrast medium: Study based on 250 cases, 157
- Use of neomycin and hydrocortisone in treatment of external otitis*, 10
- Vagotomy, subdiaphragmatic, with hemigastrectomy for average case of chronic duodenal ulcer, preliminary observations on, 172
