SUBJECT INDEX

Allergy, nasal	121	Kidney function tests, clinical and comparative value of	4
Analogy between essential hypertension and Raynaud's and Buerger's disease	184	Management of chronic peptic ulcer	220
Anemia, mechanism of	270	Management of patients with nervous exhaustion	173
Artificial fever	98	Mechanism of anemia	270
Artificial fever therapy, treatment of undulant fever by	309	Milk of calcium bile	45
Bile, calcium carbonate	45	Nasal allergy	121
Buerger's and Raynaud's disease and essential hypertension, analogy between	184	Nervous exhaustion, management of patients with	173
Bunts Institute	3, 76, 83, 156, 163, 237, 313	Neuralgia of dental origin	199
Calcium carbonate bile	45	Neuralgia, trigeminal	165
Carcinoma of prostate gland, treatment of	116	Newer developments in cholecystography	85
Carcinoma of uterine cervix, radium and roentgen rays in treatment of	56	Nutritional deficiency disease	38
Cardiovascular disease, gastro-intestinal manifestations of	243	Peptic ulcer, management of chronic	220
Cervix, uterine, radium and roentgen rays in treatment of carcinoma of	56	Peri-urethral abscess, use of protosil in streptococcus septicaemia following	232
Children, transplantation of ureters in	23	Protosil, use of in streptococcus septicaemia following cystoscopy and peri-urethral abscess	232
Cholecystography, newer developments in	85	Prostate gland, treatment of carcinoma of	116
Clinical and comparative value of renal function tests	4	Protamine-zinc-insulin in diabetes	26
Clinical nutritional deficiency disease	38	Radium and roentgen rays in treatment of carcinoma of uterine cervix	56
Confusion following thyroidectomy for hyperthyroidism	103	Raynaud's and Buerger's disease and essential hypertension, analogy between	184
Contact dermatitis, illustrative cases of	290	Rays, light, and sun, effects of on growth	212
Correction of scoliosis by use of modified turnbuckle jacket	16	Rectosigmoid, transplantation of ureters into in the very young	23
Deficiency disease, clinical nutritional	38	Relative roles of radium and roentgen rays in treatment of carcinoma of the uterine cervix	56
Delirium following thyroidectomy for hyperthyroidism	103	Renal function tests, clinical and comparative value of	4
Dental origin, neuralgia of	199	Roentgen rays in treatment of carcinoma of uterine cervix	56
Dermatitis, contact, illustrative cases of	290	Scoliosis, correction of by use of modified turnbuckle jacket	16
Diabetes, protamine-zinc-insulin in	26	Septicemia, streptococcus, use of protosil in	232
Diverticulitis, surgical treatment of	207	Significance and treatment of delirium following thyroidectomy for hyperthyroidism	103
Effects of light, sun, and other rays on growth	212	Silicosis	52
Endocrine and related factors influencing spermatogenesis	187	Spermatogenesis, some endocrine and related factors influencing	187
Endometriosis	303	Spinal cord, tumors of	261
Essential hypertension, analogy between Raynaud's and Buerger's disease and	184	Streptococcus septicaemia, use of protosil in	232
Exhaustion, nervous, management of patients with	173	Successful use of protosil in a severe case of streptococcus septicaemia following cystoscopy and peri-urethral abscess	232
Exophthalmos	66, 144	Sun, light, and other rays, effects of on growth	212
Fever, artificial	98	Surgical treatment of diverticulitis	207
Fever therapy, artificial, treatment of undulant fever by	309	Teeth, neuralgia of dental origin	199
Frank E. Bunts Institute	3, 76, 83, 156, 163, 237, 313	Tests of renal function, clinical and comparative value of	4
Friedman test, technique and interpretation	61	Thyroidectomy, delirium or confusion following	103
Gallbladder, calcium carbonate bile	45	Tic douloureux	165
Gallbladder, newer developments in cholecystography	85	Transplantation of ureters in the very young	23
Gastro-intestinal manifestations of cardiovascular disease	243	Treatment of carcinoma of prostate gland	116
Gastro-intestinal symptoms of lesions in genito-urinary tract	254	Treatment of undulant fever by artificial fever therapy	309
Genito-urinary tract, gastro-intestinal symptoms of lesions in	254	Trigeminal neuralgia	165
Growth, effects of light, sun, and other rays on	212	Tumors of the spinal cord	261
Hyperpyrexia	98, 309	Turnbuckle jacket, modification of for correction of scoliosis	16
Hypertension, essential and Raynaud's and Buerger's disease, analogy between	184	Ulcer, peptic, management of chronic	220
Hyperthyroidism, delirium or confusion following thyroidectomy for	103	Undulant fever, treatment of by artificial fever therapy	309
Insulin, protamine-zinc in diabetes	26	Urethral transplantation in the very young	23
Light, sun, and other rays, effects on growth	212	Uterine cervix, radium and roentgen rays in treatment of carcinoma of	56
