CONTENTS OF VOLUME 45

No. 1, Spring 1978

I. Screening and the noninvasive evaluation of patients with coronary artery disease

Utility of conventional risk factors in evaluation of patients with coronary disease
William B. Kannel, M.D., and P. Sorlie, M.D. 1

Can we reverse or retard an obstructive coronary lesion by risk factor intervention?
Eliot Corday, M.D. 5

Exercise testing: electrocardiography and radionuclide cineangiography
Jeffrey S. Borer, M.D. 9

Stress testing in the evaluation of patients suspected of having coronary heart disease
Myrvin H. Ellestad, M.D. 11

Myocardial scintigraphy in coronary artery disease
Elias H. Botvinick, M.D., David Shames, M.D., and William W. Parmley, M.D. 13

Echocardiography in patients with coronary artery disease
Harvey Feigenbaum, M.D. 17

II. Invasive techniques and their limitations

Pitfalls in the angiographic diagnosis of coronary artery disease
Earl K. Shirey, M.D. 19

Complications of coronary arteriography and left heart catheterization
F. Mason Sones, Jr., M.D. 21

Assessment of left ventricular function
Shahbudin H. Rahimtoola, M.D. 24

III. Preoperative and operative management

Management of anesthesia for coronary artery surgery
F. George Estafanous, M.D. 29

Ventilatory management
Demetrios G. Lappas, M.D. 37

Hemodynamic consequences of hemodilution
Arthur S. Keats, M.D. 39

Blood usage in open heart surgery
Alfred J. Tector, M.D. 42

Choice of grafts
George E. Green, M.D. 44

Choice of grafts—criteria for selection of coronary bypass conduit
Alexander S. Geha, M.D. 46

Postoperative care
Daniel J. Ullyot, M.D. 50

Hemodynamic considerations in the postoperative management of the cardiovascular surgical patient
Richard O. Russell, Jr., M.D., Nicholas T. Kouchoukos, M.D., and Robert B. Karp, M.D. 54

IV. Myocardial preservation

Myocardial preservation
Burton E. Sobel, M.D. 61

Hypothermia and anoxic arrest
Nicholas T. Kouchoukos, M.D. 66

Myocardial preservation by topical hypothermia
Edward B. Stinson, M.D. 70

Intra-aortic balloon pumping in the management of patients with coronary artery disease
Mortimer J. Buckley, M.D. 72

Pulsatile flow for improved myocardial protection
David Bregman, M.D. 76

V. Surgical techniques

Technical considerations in coronary bypass operations
Denton A. Cooley, M.D. 79

Superiority of the internal mammary artery as a coronary bypass graft
John L. Ochsner, M.D. 81

Surgical techniques
Ch. Hahn, M.D., Ninoslav Radovanovic, M.D., Martin Schmuziger, M.D., E. Hauf, M.D., and B. Faidutti, M.D. 83

Early and long-term results of combined endarterectomy and bypass grafting
Magdi H. Yacoub, M.D. 90

Operative technique
Adib D. Jatene, M.D. 94

Technique and results with side-to-side anastomoses
William H. Sewell, M.D., and Karlene V. Sewell, B.A. 98

Operative technique for coronary bypass surgery
Floyd D. Loop, M.D., Paul C. Taylor, M.D., Laurence K. Groves, M.D., Leonard A. Golding, M.D., Delos M. Cosgrove, M.D., and Manuel J. Irarrazaval, M.D. 101

Techniques in coronary artery grafting; septal artery revascularization and graft patency in jump grafts
F. E. E. Vermeulen, M.D., H. Huysmans, M.D., P. Knaepen, M.D., R. de Geest, M.D., J. Ernst, M.D., and Albert V. G. Bruschke, M.D. 103

VI. Outcome of revascularization surgery for coronary artery disease

Factors influencing graft patency
Claude M. Grondin, M.D. 107

Factors influencing patency of coronary bypass grafts
William C. Sheldon, M.D. 109

Global and regional myocardial metabolism before and after successful aortocoronary artery bypass surgery
Kanu Chatterjee, M.D. 112

Postoperative assessment of left ventricular function
Jack C. Manley, M.D. 116

Preoperative and postoperative stress evaluation in the assessment of coronary artery bypass graft surgery
Ezra A. Amsterdam, M.D., and Dean T. Mason, M.D. 121

VII. Revascularization in the more complex clinical situation

Combined valve replacement or valvulotomy and bypass graft surgery
Pierre Grondin, M.D., P. Donzeau-Gouge, M.D., O. Bical, M.D., and Jean Georges Kretz, M.D. 123

Management of coexistent carotid and coronary artery occlusive atherosclerosis
George C. Morris, Jr., M.D., Coyness L. Ennix, Jr., M.D., Gerald M. Lawrie, M.D., E. S. Crawford, M.D., and J. F. Howell, M.D. 125

Management of concomitant coronary and carotid artery obstructive disease
Harold C. Urschel, Jr., M.D. 128

Ventricular aneurysms and akinesis
Denton A. Cooley, M.D. 130

Ventricular aneurysms and akinesis
Ramiro Rivera, M.D., and Juan Luis Delcan, M.D. 133

Reoperation for myocardial revascularization
Quentin R. Stiles, M.D. 136

Reoperative myocardial revascularization
Floyd D. Loop, M.D., Manuel J. Irarrazaval, M.D., Delos M. Cosgrove, M.D., Paul C. Taylor, M.D., Laurence K. Groves, M.D., and Leonard A. Golding, M.D. 139

VIII. Natural history of patients not treated surgically

Minor prognostic associations
William L. Proudfit, M.D. 141

Ten-year follow-up of 601 nonsurgical cases of angiographically documented coronary disease; angiographic correlations
Albert V. G. Bruschke, M.D. 143

Prognosis in coronary artery disease; arteriographic, ventriculographic, and hemodynamic factors
John O. Parker, M.D. 145

Risk factors in relation to prognosis
Albert Oberman, M.D., and James C. Baldone, M.S. 147

Coronary arteriography and ventriculography in survivors of acute myocardial infarction
J. O'Neal Humphries, M.D., Bertram Pitt, M.D., Robert A. Schultze, Jr., M.D., Lawrence S. C. Griffith, M.D., S. C. Achuff, M.D., M. Baird, M.D., and G. Taylor, M.D. 151

Natural history of coronary artery disease based on coronary angiography; a critical review
Paul R. Lichtlen, M.D. 153

IX. Long-term outcome of patients treated surgically

Survival following bypass graft surgery
Edwin L. Alderman, M.D., Christopher R. Brown, M.D., Gary R. Sanders, M.D., and Edward B. Stinson, M.D. 157

Survival following aortocoronary bypass graft surgery
Lucien Campeau, M.D. 160

Long-term follow-up after coronary artery bypass
Robert J. Hall, M.D., Efrain Garcia, M.D., Virendra S. Mathur, M.D., Ulrich Busch, M.D., Denton A. Cooley, M.D., Kenneth A. Gold, M.D., and Albert G. Gray, Ph.D. 162

Effect of bypass graft surgery on survival; a 6- to 10-year follow-up study of 741 patients
William C. Sheldon, M.D. 166

Survival following myocardial revascularization; an analysis at 8 years
John A. Walker, M.D. 169

Perioperative myocardial infarction after coronary bypass surgery
Albert Oberman, M.D., Nicholas T. Kouchoukos, M.D., Y. N. Makar, M.D., Richard O. Russell, Jr., M.D., L. T. Sheffield, M.D., M. Ray, M.S., R. E. Allen, P.A., and J. R. Kitts, P.A. 172

Progression of coronary disease 5 to 7 years after aortocoronary bypass surgery
Martial G. Bourassa, M.D., Jacques Lesperance, M.D., F. Corbara, M.D., J. Saltiel, M.D., and Lucein Campeau, M.D. 175

Contributing factors preventing return to work of cardiac surgery patients
Paul David, M.D. 177

X. Selection of patients for myocardial revascularization

The bad left ventricle
Martial G. Bourassa, M.D. 179

Selection of patients for emergency coronary revascularization
Lawrence H. Cohn, M.D. 181

Unstable angina—experience with surgical therapy in the subset of patients having preinfarction angina
Jack M. Matloff, M.D., Aurelio Chaux, M.D., and Hector Sustaita, M.D. 184

XI. Summary of conference and definition of future needs

Summary of conference
René G. Favaloro, M.D. 189
