Development and evolution of coronary arteriography

F. Mason Sones, Jr., M.D. 123

Congenital variations of coronary artery anatomy

William C. Sheldon, M.D., Robert E. Hobbs, M.D.,
David Millit, M.D., Pakash V. Raghavan, M.D.,
and Douglas S. Moodie, M.D. 126

Anatomy and functional significance of coronary collaterals

Martin Kaltenbach, M.D., and Gilbert Kober, M.D. 131

Quantitative assessment of coronary artery lesions

Paul R. Lichtlen, M.D., and W. Rafflenbeul, M.D. 133

Interobserver variability in interpretation of coronary arteriograms

Harvey G. Kemp, Jr., M.D. 137

Effects of stenosis on coronary flow

K. Lance Gould, M.D. 140

Special projections

Harold E. Aldridge, M.D. 145

Unusual types of coronary artery lesions

Khosrow Dorosti, M.D. 147

Percutaneous femoral single catheter technique

Fred W. Schoonmaker, M.D. 150

Selection of contrast media

Earl K. Shirey, M.D. 152

Complications of coronary arteriography

J. Ward Kennedy, M.D. 157

Coronary arteriography; prevention of complications in the high-risk patient

Martial G. Bourassa, M.D. 160

Correlations between coronary anatomy and clinical syndromes

John O. Parker, M.D. 162

Coronary arteriography in unstable angina pectoris

Adolph M. Hutter, Jr., M.D. 164

Coronary artery spasm; clinical manifestations and angiographic correlates

Frederick A. Heupler, Jr., M.D. 166

Medical and surgical treatment of Prinzmetal's angina

John S. Schroeder, M.D., Steven Rosenthal, M.D.,
Irene Lamb, R.N., and Robert Ginsburg, M.D. 168

Generators, cine pulse systems, and x-ray tubes for coronary cineangiography

Thure Holm, M. L. 171

Image intensifiers, optical and television systems

Robert D. Moseley, M.D. 174

Recording devices for coronary arteriography

William M. Angus, M.D., Ph.D. 175
Cine films

Basic radiation protection for cardiac angiographers
Alberth H. Allard 178

Prognostic significance of a normal or nearly normal coronary arteriogram
Stephen Balter, Ph.D. 180

Coronary arteriography in asymptomatic persons
William L. Proudfit, M.D. 183

Natural history of coronary artery disease proved by coronary arteriography
Albert V. G. Bruschke, M.D., Watzek Kolsters, M.D.,
William L. Proudfit, M.D., and Theodoor S. Wijers, M.D. 187

Progressive coronary artery disease
John R. Kramer, M.D., Yasuo Matsuda, M.D., John C. Mulligan, D.O.,
Martin Aronow, D.O., and William L. Proudfit, M.D. 190

Progression and regression of coronary artery disease in postinfarction patients
less than 40 years of age
H. Roskamm, M.D., P. Sturzenhofecker, M.D., L. Gornandt, M.D.,
H. Gohlke, M.D., and W. Haakshorst, M.D. 192

Variables predictive of survival in patients with coronary disease
Karl E. Hammermeister, M.D. 195

Coronary arteriography in acute myocardial infarction
J. Eduardo M. R. Sousa, M.D. 198

Coronary arteriography in complicated acute myocardial infarction; clinical
and angiographic correlates
Luis M. de la Fuente, M.D. 200

Coronary arteriography in patients with peripheral vascular disease
Daniel F. Phillips, M.D. 206

Coronary arteriographic findings in cardiac transplant recipients
James F. Silverman, M.D., Edward B. Stinson, M.D.,
Charles P. Bieber, M.D., and Lewis Wexler, M.D. 210

Postoperative coronary arteriography
Lucien Campeau, M.D. 212

Angiographic assessment of left ventricular function
Michael V. Herman, M.D. 215

Ultrasound in the assessment of left ventricular performance
Anthony N. DeMaria, M.D. 218

Isotopic assessment of regional abnormalities of myocardial perfusion
Sebastian A. Cook, M.D. 222
Assessment of left ventricular function during exercise; the use of radionuclide cineangiography

Jeffrey S. Borer, M.D. 225

Percutaneous transluminal coronary angioplasty; two years’ experience

Andreas Grünzig, M.D., and Marko Turina, M.D. 228

Experimental coronary dilatation

Peter C. Block, M.D. 231

Surgical management of complications

Marko Turina, M.D. 235

Percutaneous transluminal coronary angioplasty

Richard K. Myler, M.D. 238

Late clinical results of coronary artery surgery

Floyd D. Loop, M.D. 243

Surgical management of complex acquired cardiovascular disease

George C. Morris, Jr., M.D., and Gerald M. Lawrie, M.D. 246

Recent advances in coronary arterial surgery

Nicholas T. Kouchoukos, M.D. 249

Coronary arterial surgery

Denton A. Cooley, M.D. 251

Myocardial infarction with normal coronary arteries

Mehdi Razavi, M.D. 253
