CME Credit Test 251

THE CLEVELAND CLINIC FOUNDATION INTRODUCES:

CLINICAL PRACTICE GUIDELINES FOR ASTHMA

Between 10 and 20 million Americans in all age groups have asthma and are generally treated by their primary care physicians.

This self-instruction program is available for two hours of Category 1 CME credit. Produced by the Continuing Education Department at The Cleveland Clinic Foundation, this video program features Dr. Mani S. Kavuru, Director of the Pulmonary Function Lab, discussing current information based on the consensus of the National Asthma Education Program's Guidelines for the Diagnosis and Management of Asthma.

Along with the 20-minute video, you will receive:

- A current, concise, and comprehensive monograph
- Additional references from guideline documents
- Pre/post-tests, registration and evaluation forms

After viewing this video and reading the accompanying written material, the participant will be able to:

- Discuss recent epidemiologic trends and predisposing risk factors associated with asthma;
- Review clinical evaluation procedures for the asthmatic patient;
- Explain the clinical practice guidelines for the diagnosis and management of asthmatic patient;
- Recognize situations warranting patient referral to a specialist.

Cost of the program is $84.95. All major credit cards are accepted. Shipping and handling is included. Ohio residents add 7 percent sales tax.

To order the clinical practice guidelines video package, or for more information on this or other clinical practice guidelines videos, please call 800/238-6750.
