

CLEVELAND CLINIC JOURNAL OF MEDICINE

DEDICATED TO LIFELONG LEARNING

MEDICAL GRAND ROUNDS

How to tell patients bad news: the strategy of "forecasting" 181

How does one tell a patient that he or she has cancer, or new parents that their child has a birth defect?

D.W. MAYNARD

Diagnosis and management of acute pancreatitis 182

Timely recognition and management of risk factors in acute pancreatitis can prevent catastrophic outcomes.

W.M. STEINBERG

CLINICAL REVIEWS

H pylori 1997: Testing and treatment options 187

Which tests for *H pylori* are most useful? Which treatment regimens are most effective?

G.W. FALK

A practical guide for peak expiratory flow monitoring in asthma patients 195

The peak expiratory flow rate is an objective measure of airflow obstruction that patients can learn with little difficulty.

P. JAIN AND M.S. KAVURU

Myths and facts about Lyme disease 203

The myth of Lyme disease holds that it is common, protean in its manifestations, and incurable. In reality, Lyme disease is none of these things.

L.H. SIGAL

Recognizing the stress of infertility 211

Infertility imposes substantial stress on couples and their marriages. Physicians can help by recognizing the stress and making appropriate referrals.

L.R. SCHOVER

THE CLINICAL PICTURE

The perils of nontreatment of hyperuricemia 215

A new series on the visual presentation of physical findings.

G. S. HOFFMAN

INTERNAL MEDICINE BOARD REVIEW

Fever, abdominal pain and jaundice in a 43-year-old woman 216

On the basis of the clinical picture and laboratory data, what is the most likely diagnosis?

K. SHETTY AND W.D. CAREY

CANCER DIAGNOSIS AND MANAGEMENT

Calculating cancer risk: It is harder than it seems 220

Many factors make cancer risk assessment difficult, especially when determining the risk for an individual.
