COMMENTARY

Do today's medical residents really have it better? 457

Despite changes designed to make medical education more humane, it is not easier to be an intern or resident today.

F. MICHOTA

MEDICAL GRAND ROUNDS

Can the patient make treatment decisions? Evaluating decisional capacity 461

Evaluations of a patient's ability to make treatment decisions are common in everyday practice. Dr. Agich reviews the standards for evaluating decisional capacity.

G.J. AGICH

CANCER DIAGNOSIS AND MANAGEMENT

Minimizing reproductive risks of cancer chemotherapy 465

Now that more children and young adults are surviving malignant diseases, a new problem is arising: the reproductive effects of intensive chemotherapy.

M. MARKMAN

CLINICAL REVIEWS

Diagnosing and treating hallux valgus: A conservative approach to a common problem 469

For most patients with hallux valgus, the problem is caused by wearing shoes that are too tight. How to evaluate and treat this problem, and when to refer to an orthopaedic surgeon.

B.G. DONLEY, C.L. TISDEL, J.J. SFERRA, AND J.O. HALL

Ethical perspectives on Jehovah's Witnesses' refusal of blood 475

Jehovah's Witnesses are not antimedicine, but do refuse blood transfusions and blood products. How to deal with the treatment dilemmas this can create.

M.L. SMITH
