TABLE OF CONTENTS

MEDICAL GRAND ROUNDS

Idiopathic thrombocytopenic purpura: 510
Guidance amid uncertainty

A panel of experts has issued clinical guidelines for treating thrombocytopenic purpura, but points out that we lack solid evidence from randomized trials.
A. LICHTIN

INTERNAL MEDICINE BOARD REVIEW

Severe back and abdominal pain in a 44-year-old woman 515

What is the likely cause of this patient's symptoms?
A self-quiz on a clinical case.
A. JAFFER AND L. CALABRESE

CURRENT DRUG THERAPY

Antileukotrienes and asthma: 519

Alternative or adjunct to inhaled steroids?
A new class of oral drugs decrease airflow inflammation and constriction. An illustration shows how the new antileukotriene drugs block the process of airway inflammation.
M.S. KAVURU, R. SUBRAMONY, AND A.R. VANN

REVIEW

Epilepsy update: 527

New medical and surgical treatment options

We have more treatment options for epilepsy than ever before, but to use them properly, physicians must classify the seizure type accurately.
G. ARUNKUMAR AND H. MORRIS

INTERPRETING KEY TRIALS

Results of the ATLAS study
High or low doses of ACE inhibitors for heart failure?

A large clinical trial shows that high doses of an ACE inhibitor are superior to the low doses that many physicians prescribe.

R.E. HOBBS

REVIEW

Daytime sleepiness: When is it normal? When to refer?

Daytime sleepiness has potentially serious consequences and should be investigated like any other symptom. With an algorithm for office evaluation.

S.R. BENBADIS

CLINICAL DECISION-MAKING

The difficulties of differentiating vasculitis from its mimics

The signs and symptoms of vasculitis are not specific, and the tests for it can be misleading.
