FROM THE EDITOR

A new deputy editor and two more issues in 2000 8

J.D. CLOUGH

1-MINUTE CONSULT

Should patients receive anticoagulation for paroxysmal atrial fibrillation? 9

Consider anticoagulation therapy for all patients with atrial fibrillation—intermittent or chronic—if they have risk factors for stroke.

M.K. CHUNG

MEDICAL GRAND ROUNDS

Heart failure: Highlights from new consensus guidelines 13

For the first time, we have the means to halt the progression of heart failure and reduce mortality—if we intervene early enough.

J. YOUNG

MEDICAL GRAND ROUNDS

Gulf War syndrome: Proposed causes 17

To date, no single cause has been proved conclusively to account for Gulf War syndrome, but theories abound.

S.D. FROST

IM BOARD REVIEW

Nonhealing cellulitis in a 54-year-old man with diabetes mellitus 21

What is the cause of this patient's symptoms? A self-test on a clinical case.

S.D. MAWHORTER

The *Cleveland Clinic Journal of Medicine* (ISSN 0891-1150) is published 12 times yearly by The Cleveland Clinic Foundation.

STATEMENTS AND OPINIONS expressed in the *Cleveland Clinic Journal of Medicine* are those of the authors and not necessarily of The Cleveland Clinic Foundation or its Board of Trustees.

AUTHOR DISCLOSURES: Current guidelines state that participants in CME activities should be made aware of any affiliation or financial interest that may affect an author's article as well as any discussion of off-label drug therapies. All authors, except those indicated with an asterisk and a footnote with the article, have disclosed that they do not have a conflict of interest or will not discuss off-label therapies.

SUBSCRIPTION RATES: U.S. and possessions: personal $85; institutional $108; single copy/back issue $10. Foreign: $108; single copy/back issue $12. Institutional (multiple-reader rate) applies to libraries, schools, hospitals, and federal, commercial, and private institutions and organizations. Individual subscriptions must be in the names of, billed to, and paid by individuals.

REVIEW

The dilemma of nosocomial pneumonia: What primary care physicians should know 25

To save the patient's life, treatment must be started quickly. Yet the signs, symptoms, and diagnostic tests are often unreliable.

P.S. KHURANA AND D. LITAKER

CARING FOR OLDER PATIENTS

Recognizing, treating, and preventing common foot problems 45

Practical recommendations regarding sensory neuropathy, infections, corns, calluses, and other common foot problems.

J.M. ROBBINS

PATIENT INFORMATION
Keeping your feet healthy 57

An illustrated patient-information sheet to copy and give to your patients.

UPDATE ON ACUTE CORONARY SYNDROMES

Unfractionated and low-molecular-weight heparins in acute coronary syndromes: Current recommendations 59

Most patients with acute coronary syndromes are candidates for heparin therapy. Low-molecular-weight heparin may offer advantages over standard, unfractionated heparin.
