TABLE OF CONTENTS

FROM THE EDITOR

What's your opinion of *CCJM*'s Patient Information page? 695

Is our Patient Information page useful "as is," or are changes in order? Let us know.

J.C. CLOUGH

1-MINUTE CONSULT

Can calcium and vitamin D supplementation adequately treat most patients with osteoporosis? 696

Although calcium and vitamin D play an important role in treating osteoporosis, they are not adequate by themselves.

C. DEAL

MEDICAL GRAND ROUNDS

Osteoporosis: Which current treatments reduce fracture risk? 701

With effective agents available, physicians should make osteoporosis treatment a priority, especially for patients at high risk.

D.T. BARAN

REVIEW

Tricyclic antidepressant poisoning 704

Tricyclic overdose—intentional or otherwise—is still common and can be lethal. Keep it in mind, and be aware of the pitfalls in its diagnosis.

J. GLAUSER

CANCER DIAGNOSIS AND MANAGEMENT

The evolving role of hormone therapy in advanced prostate cancer 720

If the patient's prostate-specific antigen level resumes rising after surgery or radiotherapy for prostate cancer, the next step is hormonal therapy.

R. DREICER

REVIEW

Diastolic dysfunction and heart failure: Causes and treatment options 727

Although diastolic dysfunction is the underlying problem in at least one third of cases of heart failure, it is still poorly understood.

M.J. GARCIA

The *Cleveland Clinic Journal of Medicine* (ISSN 0891-1150) is published 12 times yearly by The Cleveland Clinic Foundation.

STATEMENTS AND OPINIONS expressed in the *Cleveland Clinic Journal of Medicine* are those of the authors and not necessarily of The Cleveland Clinic Foundation or its Board of Trustees.

AUTHOR DISCLOSURES: Current guidelines state that participants in CME activities should be made aware of any affiliation or financial interest that may affect an author's article as well as any discussion of off-label drug therapies. All authors, except those indicated with an asterisk and a footnote with the article, have disclosed that they do not have a conflict of interest or will not discuss off-label therapies.

SUBSCRIPTION RATES: U.S. and possessions: personal $85; institutional $108; single copy/back issue $13. Foreign: $108; single copy/back issue $13. Institutional (multiple-reader rate) applies to libraries, schools, hospitals, and federal, commercial, and private institutions and organizations. Individual subscriptions must be in the names of, billed to, and paid by individuals.

REVIEW

How to help your patients lose weight: Current therapy for obesity 739

Although weight-loss drugs won't produce miracles, attempts at weight loss are worth the effort.

D. WEISS

REVIEW

Diagnosis and treatment of gastroesophageal reflux disease in the elderly 755

As people age, GERD becomes more common, more likely to cause complications, and more challenging to diagnose and treat.

F.C. RAMIREZ

PATIENT INFORMATION **Gastroesophageal reflux disease** 766

REVIEW

Incorporating soy protein into a low-fat, low-cholesterol diet 767

The USDA recommends eating at least 25 g/day of soy protein as part of a low-fat diet to reduce LDL levels.

A.V. DUNN
