TABLE OF CONTENTS

FROM THE EDITOR

The Vioxx withdrawal: Latest in the COX-2 controversies 841

Discussion of the COX-2 inhibitors has been emotionally polarized every step of the way, and it's not over. Two other COX-2 drugs are still available, and much money is at stake.

B. F. MANDELL

COMMENTARY

A world without Vioxx: To COX-2 or not to COX-2? 849

Are all selective COX-2 inhibitors associated with an increased risk for thromboembolic cardiovascular events? And what should we tell patients?

L. S. SIMON AND V. STRAND

REVIEW

Benign prostatic hyperplasia: Now we can begin to tailor treatment 857

The management of benign prostatic hyperplasia has improved considerably in recent years. A review of medications, surgery, and new minimally invasive procedures.

C. K. GJERTSON, K. WALMSLEY, AND S. A. KAPLAN

HEART VALVE UPDATE

Understanding valvular heart disease in patients with systemic autoimmune diseases 881

Specific systemic autoimmune diseases are associated with distinct valvular heart disorders. Earlier detection and management may prevent some morbidity and mortality.

K. MAKSIMOWICZ-MCKINNON AND B. F. MANDELL

REVIEW

Radiologic imaging in rhinosinusitis 886

Imaging may be necessary for rhinosinusitis that is refractory, chronic, recurrent, or complicated.

P. S. BATRA

CONTINUED ON PAGE 846

CONTINUED FROM PAGE 845

MEDICAL GRAND ROUNDS.....

A practical program for preventing delirium in hospitalized older patients 890

Delirium in hospitalized elderly patients is common, often unrecognized, and can lead to serious complications. A systematic program can improve the rate of recognition and decrease the rate of incidence.

S.K. INOUE, MD

REVIEW.....

Safe use of opioids in chronic noncancer pain 897

Many physicians needlessly avoid prescribing opioid analgesics for chronic pain because of misconceptions about efficacy, adverse effects, abuse, and addiction potential.

T.E. DEWS AND N. MEKHAIL

REVIEW.....

A guide to informed consent for clinician-investigators 907

Informed consent is a process, not a form. It is a legal and ethical safeguard to ensure that subjects enter studies voluntarily and fully informed.

K.A. BRAMSTEDT

PATIENT-ORIENTED EVIDENCE THAT MATTERS (POEMs).....

■ Three percent of TIA patients have a stroke within 30 days 848
