APRIL 2005

TABLE OF CONTENTS

FROM THE EDITOR

Messing with Mother Nature 265

Even the most effective, cleverly targeted therapies may come with unintended consequences.

B.F. MANDELL

COMMENTARY

'Thanks for sharing': A fictional reflection on shared medical appointments 277

"I'm not an exhibitionist, Doctor. I came here to see *you*, not to be part of a medical encounter group."

L.G. COHEN

Shared appointments can be good care 280

Shared appointments are not for everybody, but we have found they help in providing access for hopelessly backlogged physicians and are usually enjoyable for both the patients and the physician.

D.L. BRONSON AND R.A. MAXWELL

EDITORIAL

Highly resistant HIV: If not a super strain, at least a wake-up call 285

Even if it is too soon to sound the alarm about a "super strain," we must redouble our prevention efforts.

A.J. TAEGE AND W.S. ARMSTRONG

CURRENT DRUG THERAPY

Management of erectile dysfunction by the primary care physician 293

The oral selective inhibitors of PDE5 have revolutionized the treatment of erectile dysfunction and made it the province of primary care physicians.

N. MIKHAIL

REVIEW

Varicose veins: Newer, better treatments available 312

We can now offer patients more convenient and less invasive options for managing their varicose veins.

J.R. BARTHOLOMEW, T. KING, A. SAHGAL, AND A.T. VIDIMOS

REVIEW

Uveitis in the internist's office: Are a patient's eye symptoms serious? 329

The diagnosis is not always clear. If it is uveitis, physicians must determine if it is caused by infection or is a sign of an underlying condition. Management is best handled collaboratively with an ophthalmologist.

R.A. HAJJ-ALI, C. LOWDER, AND B.F. MANDELL

MEDICAL GRAND ROUNDS

Advances in the treatment of hemorrhagic stroke: A possible new treatment 341

Recombinant factor VIIa may be the first proven treatment for intracerebral hemorrhage.

J.P. BRODERICK

MEDICAL GRAND ROUNDS

Hypertensive disorders of pregnancy: Overdiagnosis is appropriate 345

Since the presentation of preeclampsia is variable, a high index of suspicion is warranted.

S.P. EMERY

IM BOARD REVIEW

An elderly woman with leg swelling and pain 353

Six days after she started treatment for deep venous thrombosis, her platelet count drops to 60×10^9/L. What is the cause?

H.L. DANESCHVAR AND H. DAW

PATIENT-ORIENTED EVIDENCE THAT MATTERS (POEMs)

- **Quality of life with rate or rhythm control in atrial fibrillation (AFFIRM trial)** 288
- **Hyperbaric oxygen prevents major amputation in diabetic patients with chronic wounds** 290

DEPARTMENTS

CME Calendar 269

Letters to the Editor 272

Cervical cancer screening (February 2005)

Physical therapy for back pain (January 2005)

2004 Reviewers 281
