

## TABLE OF CONTENTS

## FROM THE EDITOR.....

**David Rolston, MD, joins the *Journal* staff 633**

Meet our new deputy editor, internist Dr. David Rolston.

B. F. MANDELL

## REVIEW.....

**Why and how to prescribe exercise:  
Overcoming the barriers 645**

To help patients start exercising and stay with it, clinicians should start by writing a prescription.

G. FLETCHER AND J. F. TREJO

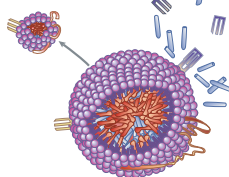

**PATIENT  
INFORMATION****Advice for when  
you begin exercising 657**

## REVIEW.....

**Demystifying triglycerides:  
A practical approach for the clinician 661**

Despite uncertainties, the National Cholesterol Education Program's report provides a practical framework for approaching hypertriglyceridemia.

R. L. DUNBAR AND D. J. RADER

## THE CLINICAL PICTURE.....

**Multiple skin nodules in a 64-year-old woman 687**

The nodules developed about 18 years ago, about 10 years after the onset of proximal muscle weakness and rash. What is the diagnosis?

S. CHHAYA AND K. RENDT

## MEDICAL GRAND ROUNDS.....

**Update on Wegener granulomatosis 689**

Although Wegener granulomatosis is uncommon, it is relevant to internists because it is a multisystem disease that presents in a variety of ways. Current treatments induce remission and allow long-term survival.

C. A. LANGFORD

## REVIEW.....

**Interstitial cystitis: A primary care perspective 698**

Interstitial cystitis is more common than previously thought. Conservative measures are effective for many patients.

M. ROSENBERG, C. L. PARSONS, AND S. PAGE

## IM BOARD REVIEW.....

**A 56-year-old man with hypercalcemia 707**

He has no symptoms, but his liver is palpable and his calcium, glucose, and creatinine concentrations are elevated. What is the cause?

O. ALADESANMI, X.W. JIN, AND C. NIELSEN

## MEDICAL PROBLEMS IN PREGNANCY.....

**The liver in pregnancy: Disease vs benign changes 713**

Liver dysfunction may be caused by the pregnancy, it may be unrelated to the pregnancy, or it may be a chronic condition that existed before the pregnancy.

J. WAKIM-FLEMING AND N.N. ZEIN

## 1-MINUTE CONSULT .....

**Should patients with TIAs be hospitalized? 722**

Some patients may need to be hospitalized for specific reasons. The important point is that TIAs are not benign and that the causes of TIAs should be urgently diagnosed and treated.

D.W. KRIEGER

## PATIENT-ORIENTED INFORMATION THAT MATTERS (POEMs) .....

■ **Low-dose dopamine ineffective for acute renal failure 642**

■ **Testing for prothrombotic defects not necessary after first venous thrombotic event 681**

■ **Negative CT scan to rule out pulmonary embolism is equal to angiography 706**

## DEPARTMENTS .....

**CME Calendar 638****Letters to the Editor 639**

Respiratory disorders in neuromuscular diseases  
Erectile dysfunction

**Correction 640**

Migraine aura without headache  
(June 2005).

**Instructions to Authors 682****CME Self-test Online 727**

- The *Cleveland Clinic Journal of Medicine* is peer-reviewed and indexed in *Index Medicus*.

# UPCOMING FEATURES

- **Statins: The case for higher, tailored starting doses**
- **Pleural effusions: Evaluation and management**
- **Emerging care for type 2 diabetes**
- **Short-bowel syndrome: Making the most of what is left**
- **Should we screen for abdominal aortic aneurysms?**
- **Hepatitis C affects more than just the liver**
- **ARBs: Benefits beyond lowering blood pressure**
- **How soon is noncardiac surgery safe after drug-eluting stent placement?**
