FROM THE EDITOR

The hospital guy redux 759

In the September issue of the *Journal*, Dr. Thomas Lansdale discussed the pressures that are eroding physician-patient relationships and that can corrupt patient care. I am aware of these forces, but I remain a hospital guy because I can still make a difference.

B.F. MANDELL

THE CLINICAL PICTURE

A 90-year-old woman with an asymptomatic spot on her cheek 768

The lesion is asymmetrical and irregularly pigmented with variegated colors and ill-defined borders. What is the diagnosis?

M.F. HELM AND L. LIN

REVIEW

Skin manifestations of diabetes 772

Almost all diabetic patients eventually develop skin complications from the disease itself or as a side effect of glucose-lowering drugs.

S. VAN HATTEM, A.H. BOOTSMA, AND H.B. THIO

IM BOARD REVIEW CME CREDIT

A young pregnant woman with shortness of breath 788

She is 12 weeks pregnant, has had no prenatal care, and has lost 20 pounds due to nausea and vomiting. What could be the cause?

D.A. PERKINS, C. NIELSEN, AND M. FAULX

REVIEW CME CREDIT

Evaluation and management of pituitary incidentalomas 793

A surprising number of apparently healthy people harbor unsuspected pituitary tumors, which are being discovered incidentally on computed tomography and magnetic resonance imaging.

D. SERHAL, R.J. WEIL, AND A.H. HAMRAHIAN

EDITORIAL

Evolution and results of aortic valve surgery, and a 'disruptive' technology 802

Percutaneous aortic valve insertion is already benefitting patients who would not be able to undergo open heart surgery for valve replacement. However, the technology is still so new that we do not yet know how to define who will benefit from it.

L.G. SVENSSON

CME CREDIT REVIEW

Percutaneous treatment of aortic valve stenosis 805

This less-invasive approach may become an option for patients with severe symptomatic aortic valve stenosis who cannot undergo surgery.

CME CREDIT REVIEW

Update on constipation: One treatment does not fit all 813

Since constipation has a variety of causes and forms, one treatment does not fit all patients. Often, the key to improvement and patient satisfaction is to understand the mechanism and the patient.
