

TABLE OF CONTENTS

FROM THE EDITOR

No pig in a poke **561**

As we approach the 2009 flu season, “swine flu” presents a real and distinct concern for patients, clinicians, and public health officials.

B.F. MANDELL

CARDIOVASCULAR BOARD REVIEW

A middle-aged man with progressive fatigue **564**

He has been taking good care of himself, but 1 year ago his ejection fraction was 60% and now it is 35%. He also has a new left bundle branch block. What is the cause?

A.M. McDIVIT AND A.T. ASKARI

THE CLINICAL PICTURE

Ulcerative leg nodules in a transplant recipient **575**

Three weeks after undergoing bilateral lung transplantation, the patient has developed new nodules on his leg. What is the cause?

A-P CHUA, S.D. BILLINGS, M.M. BUDEV, AND A.C. MEHTA

CME CREDIT MEDICAL GRAND ROUNDS

Update on 2009 pandemic influenza A (H1N1) virus **577**

The approaches to vaccination, prophylaxis, and treatment will be more complex this year. Unsuspected cases of influenza in hospitalized patients or health care workers working with influenza pose the greatest threat for transmission of influenza within the hospital. Health care workers need to stay home when sick.

S.M. GORDON

CME CREDIT REVIEW

Nephrolithiasis: Treatment, causes, and prevention **583**

Kidney stones are not all the same, and neither are their treatment, causes, or prevention. Paradoxically, calcium restriction is not warranted for patients who have calcium stones, and may even be harmful.

P.M. HALL

REVIEW

**Less-invasive ways to remove stones 592
from the kidneys and ureters**

Lithotripsy, ureteroscopy, and percutaneous nephrolithotomy all have advantages and disadvantages in different situations. But not all patients with stones need intervention.

M.K. SAMPLASKI, B.H. IRWIN, AND M. DESAI

CME CREDIT REVIEW 599

**Recognizing and treating
cutaneous signs of liver disease**

If we can recognize these manifestations early, we will be better able to promptly diagnose and treat the underlying liver disease as well as the skin lesions.

R. HAZIN, T.I. ABU-RAJAB TAMIMI, J.Y. ABUZETUN, AND N.N. ZEIN

CME CREDIT REVIEW 607

**Autoimmune pancreatitis:
A mimic of pancreatic cancer**

The accurate and timely diagnosis of this benign disease may preempt the misdiagnosis of cancer and decrease the number of unnecessary pancreatic resections.

R. LAW, M. BRONNER, D. VOGT, AND T. STEVENS
