Bone quality: A soft concept, hard to ignore 328

How can we better predict who, given a low T score, will have a fractured hip or spine and who will not?

B.F. Mandell

**REVIEW**

Bone density vs bone quality: What’s a clinician to do?

Denser bone is not necessarily stronger. The concept of bone strength has moved beyond density alone and now includes a number of characteristics collectively referred to as bone quality.

A. Licata

**INFECTIOUS DISEASE UPDATE**

The resurgence of swine-origin influenza A (H1N1)

The health care system is mobilizing, while the world watches to see if this infection will become a pandemic or will just fade away, like the swine flu outbreak of 1976.

S.B. Mossad

**COMMENTARY**

New developments in the diagnosis of fibromyalgia syndrome: Say goodbye to tender points?

The Symptom Intensity Scale score can be used to identify and quantify fibromyalgia syndrome from information supplied by a simple questionnaire.

W.S. Wilke

**IM BOARD REVIEW**

A 72-year-old man with a purpuric rash 353

He has multiple medical problems and a new rash that appeared 2 weeks ago. Now he presents to the emergency department confused and diaphoretic.

What is the cause of his symptoms?

S.S. Goel and C.A. Langford

**CONTINUED ON PAGE 324**
CONTINUED FROM PAGE 323

Diffuse hair loss: its triggers and management 361

Triggers include a wide variety of physical or emotional stresses, nutritional deficiencies, and endocrine imbalances. Finding the cause enables appropriate treatment.

S. HARRISON AND W. BERGFELD

Is telemetry overused? 368

Cardiac telemetry is widely used in hospitals, but it is expensive and labor-intensive. Therefore, it should be used only in those most likely to benefit.

Soft tissue atrophy after corticosteroid injection 373

Although it is rare, patients still need to be told about this potential adverse effect.

P.J. PAPADOPOULOS AND J.D. EDISON

Letters to the editor 329

Readers comment on articles on the diagnosis of acute myocardial infarction (March 2009) and the shingles vaccine (January 2009).
