Stenting atherosclerotic renal arteries:
Time to be less aggressive

How to evaluate asymptomatic liver function test elevations

What evidence for VTE prophylaxis in long-term care?

Treating silent GERD does not improve asthma symptoms

Treating, preventing acute upper GI bleeding

Bon voyage: Lessening the health risks of travel

The JUPITER trial:
Should we give statins to prevent venous thromboembolism?

Myelodysplastic syndromes:
A practical approach to diagnosis and treatment

The myelodysplastic syndromes are clonal bone marrow disorders that lead to underproduction of normal blood cells. Primary care physicians tend to be the first to identify the problem.

A. Barzi and M.A. Sekeres

Abdominal pain in a 20-year-old woman

Her body mass index is 18.7, and she has lost 20 lb despite a good appetite. What is the cause?

L.S. Pasumarty, D.E. Ahlbrandt, and J.W. Sroul

Food allergy and eosinophilic esophagitis:
Learning what to avoid

What we know about the mechanisms of food allergies and eosinophilic esophagitis, how to diagnose them, and how to treat them.

S. Hong and N.M. Vogel

Should we routinely screen for hypercapnea in sleep apnea patients before elective noncardiac surgery?

Yes. Obesity hypoventilation syndrome is often undiagnosed and greatly increases perioperative risk.

B. Mokhlesi, L. Saager, and R. Kaw

To receive CME credit, read the selected articles in this issue and then go online to take the test. It should take about 1 hour and 30 minutes to complete this activity.
