NOVEMBER 2010

Table of Contents

FROM THE EDITOR

Preventing clots: Don't let the complex overshadow the simple 742

Although we often approach anticoagulation therapy with a confidence born of familiarity, it is not for the faint of heart.

B.F. MANDELL

EDITORIAL

Intracerebral hemorrhage: Pick your poison 743

Whether to resume anticoagulant therapy after an intracerebral hemorrhage requires careful consideration of many factors, including patient preferences and tolerance of different levels of risk.

F. MICHOTA

1-MINUTE CONSULT

How soon after hip fracture surgery should a patient start bisphosphonates? 751

Starting a bisphosphonate too soon after surgery could disrupt bone remodeling and delay fracture repair.

M. SETON

MEDICAL GRAND ROUNDS

What's new in treating older adults? 770

Recent studies and trials regarding bone loss, dialysis outcomes, dementia, and other topics.

B. MESSINGER-RAPPORT

REVIEW CME CREDIT

Should anticoagulation be resumed after intracerebral hemorrhage? 791

In selected patients, the potential benefit of resuming anticoagulation outweighs the considerable risk.

J.N. GOLDSTEIN AND S.M. GREENBERG

CME CREDIT REVIEW

Approach to a low TSH level: Patience is a virtue 803

Confronted with a low TSH level, physicians should not jump to the conclusion that it is due to a hyperthyroid state.

K.M. PANTALONE AND C. NASR

CME CREDIT REVIEW

Influenza 2010-2011: Lessons from the 2009 pandemic 812

The 2009 pandemic of influenza A (H1N1) was less severe than some others, thanks in part to advances in diagnosis, treatment, and public health.

M.G. ISON AND N. LEE

CME CREDIT REVIEW

When 'blue babies' grow up: What you need to know about tetralogy of Fallot 821

Children born with tetralogy of Fallot and other congenital heart defects are living longer—long enough, eventually, to present to your clinic.

D. FOX, G.P. DEVENDRA, S.A. HART, AND R.A. KRASUSKI

DEPARTMENTS

CME Calendar 747

Letters to the Editor 762

Readers comment on preventing glucocorticoid-induced osteoporosis (August 2010) and on electronic medical records (July 2010).

Directions for taking CME tests online 829

To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.
Release date: November 1, 2010
Expiration date: October 31, 2011
