

TABLE OF CONTENTS

FROM THE EDITOR

The bittersweet of steroid therapy **709**

Every physician has had patients with the long-term effects of glucocorticoid therapy, including diabetes.

B.F. MANDELL

THE CLINICAL PICTURE

An erythematous plaque on the nose **728**

A 38-year-old woman presents with a lesion that appears during periods of cold weather. What is the most likely diagnosis?

S. ARIAS-SANTIAGO, M.I. SORIANO-HERNÁNDEZ, J. ANEIRO-S-FERNÁNDEZ, P. BURKHARDT-PÉREZ, A. BUENDÍA-EISMAN, R. NARANJO-SINTES, AND M. ALAMINOS-MINGORANCE

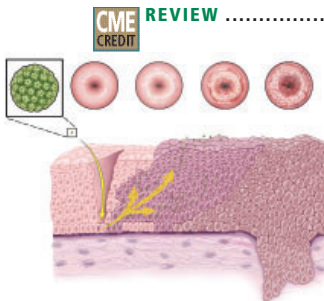

THE CLINICAL PICTURE

Osborn waves: An inverse correlation with core body temperature **734**

Classic electrocardiographic findings in hypothermia include J waves, which become higher in amplitude the lower the core body temperature.

H.R. OMAR AND H.D. ABDELMALAK

REVIEW

Cervical cancer screening: Less testing, smarter testing **737**

The latest guidelines call for less frequent but smarter screening that integrates human papillomavirus testing with the Papanicolaou test.

X.W. JIN, A. SIKON, AND B. YEN-LIEBERMAN

CME CREDIT REVIEW
Glucocorticoid-induced diabetes and adrenal suppression: How to detect and manage them **748**

Choosing specific drugs to counter hyperglycemia, tests for adrenal suppression and systemic glucocorticoid absorption, and how and why to taper these drugs.

M.C. LANSANG AND L.K. HUSTAK

CME CREDIT REVIEW
Nocturia in the elderly: A wake-up call **757**

Nocturia is common, but elderly patients infrequently volunteer this complaint, and even when they do, some clinicians may dismiss it.

V. VARILLA, R.V. SAMALA, D. GALINDO, AND J. CIOCON

PATIENT INFORMATION

Do you get up a lot at night to go to the bathroom? **765**

DEPARTMENTS
CME Calendar **717**

Letters to the Editor **720**
 Readers comment on the management of atrial fibrillation (April 2011) and on angioedema due to angiotensin-converting inhibitors and related drugs (May 2011) .

Directions for taking CME tests online **767**
 To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.
 Release date: November 1, 2011
 Expiration date: October 31, 2012

UPCOMING FEATURES
