

## Airway pressure release ventilation

(FEBRUARY 2011)

There were several errors in the citation of sources for figures in: Modrykamien A, Chatburn RL, Ashton RW. Airway pressure release ventilation: An alternative mode of mechanical ventilation in acute respiratory distress syndrome. *Cleve Clin J Med* 2011; 78:101–110.

For **FIGURE 1**, the credit line was omitted. It should be: Reprinted from Papadakos PJ, Lachmann B. The open lung concept of mechanical ventilation: the role of recruitment and stabilization. *Crit Care Clin* 2007; 23:241–250, with permission from Elsevier.

**FIGURE 2** and **FIGURE 3** were correctly identified as being reprinted from Frawley PM, Habashi NM. Airway pressure release ventilation: theory and practice. *AACN Clinical Issues* 2001; 12:234–246. However, they were reprinted with permission from Wolters Kluwer Health/Lippincott, Williams & Wilkins, not from Elsevier.

The corrections have been made to the online versions of the article. ■
