TABLE OF CONTENTS

FROM THE EDITOR

The pain of cholesterol-lowering therapy 354

It seems that everyone “knows” that statins cause muscle pain, including many patients with hypercholesterolemia.

B.F. MANDELL

MEDICAL GRAND ROUNDS

Immune thrombocytopenia: No longer ‘idiopathic’ 358

Once regarded as idiopathic, immune thrombocytopenia is now understood to involve both accelerated platelet destruction and impaired platelet production.

K. McCRAE

THE CLINICAL PICTURE.....

Scar reactivation and dry cough 375

A 52-year-old woman has swelling and redness of seven old scars and a dry cough. What diagnostic test should be performed?

G. RECH, R. BALESTRI, F. BARDAZZI, B.M. PIRACCINI, AND A. PATRIZI

THE CLINICAL PICTURE.....

Subphrenic abscess from a perforated duodenal ulcer 377

A 55-year-old man presents after 3 weeks of sharp epigastric pain radiating to the right upper quadrant, fever, and generalized weakness.

Y. SHEN, P. ONG, N. GANDHI, AND A. DEGIROLAMO

MEDICAL GRAND ROUNDS.....

How to manage type 2 diabetes in medical and surgical patients in the hospital 379

Many patients admitted to the hospital have diabetes mellitus—diagnosed or undiagnosed—and others develop hyperglycemia from the stress of hospitalization.

G.E. UMPIERREZ

CME CREDIT **IM BOARD REVIEW** **Progressive muscle weakness: More there than meets the eye** **385**

A 56-year-old woman presents with proximal weakness in all four limbs. What are the possible causes?

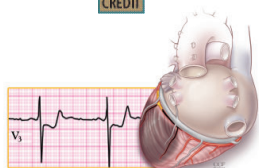

S. ALBASHIR, L. OLANSKY, AND M. SASIDHAR

CME CREDIT **REVIEW** **Statin myopathy: A common dilemma not reflected in clinical trials** **393**

When a patient taking a statin complains of muscle aches, is he or she experiencing statin-induced myopathy or some other problem? Should the statin be discontinued?

G. FERNANDEZ, E.S. SPATZ, C. JABLECKI, AND P.S. PHILLIPS

CME CREDIT **REVIEW** **ST-segment depression and T-wave inversion: Classification, differential diagnosis, and caveats** **404**

Knowing the characteristic patterns is critical for a timely diagnosis of life-threatening disorders.

E.B. HANNA AND D.L. GLANCY

DEPARTMENTS **Letters to the Editor** **355**

Readers comment on iron therapy and infection (March 2011), and managing bloodstream infections (January 2011).

Correction **356**

There was an error in the caption for **FIGURE 2** in: Villa-Forte A. Giant cell arteritis: Suspect it, treat it promptly. *Cleve Clin J Med* 2011; 78:265–270.

CME Calendar **392**

Directions for taking CME tests online **415**

To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.

Release date: June 1, 2011

Expiration date: May 31, 2012

UPCOMING FEATURES
