TABLE OF CONTENTS

FROM THE EDITOR ............................................................. Talking to patients: Barriers to overcome 90
Not all patients think like doctors, but we need to be able to think like patients.
B.F. MANDELL

REVIEW .................................................................................. Posttraumatic stress disorder, depression, and suicide in veterans 92
In military veterans, depression, posttraumatic stress disorder, and suicidal thoughts are common and closely linked.
L. SHER, M.D. BRAQUEHAIS, AND M. CASAS

THE CLINICAL PICTURE ......................................................... A 48-year-old woman with an ecchymotic rash 102
Her test results satisfied the criteria for a lupus anticoagulant. What is the most likely diagnosis?
S. CHATTERJEE AND R.J. TUTHILL

THE CLINICAL PICTURE ......................................................... Chest pain followed by sudden collapse 110
A 51-year-old man, resuscitated from ventricular fibrillation, has ST elevation in leads V1 and V2. What is the likely cause?
H.R. OMAR

MEDICAL GRAND ROUNDS ................................................... Deep brain stimulation: What can patients expect from it? 113
Its indications (particularly movement disorders), risks, and benefits, and what is involved before, during, and after implantation.
A. MACHADO, H.H. FERNANDEZ, AND M. DEOGAONKAR

CONTINUING FROM PAGE 84

REVIEW ........................................................................................... 121
Finding the cause of acute kidney injury: Which index of fractional excretion is better?
In patients on diuretics, fractional excretion of urea should be used in preference to fractional excretion of sodium.
J. GOTFRIED, J. WIESEN, R RAINA, AND J.V. NALLY JR

ADDRESSING DISPARITIES IN HEALTH CARE ........................................ 127
Overcoming health care disparities via better cross-cultural communication and health literacy
Health care disparities have multiple causes. Poor communication is a cause that can be modified.
A.D. MISRA-HEBERT AND J.H. ISAACSON

MEDICAL GRAND ROUNDS .................................................................... 134
New and future therapies for lupus nephritis
Clinical trials show that less-toxic drugs, such as mycophenolate mofetil, are as effective as older, more-toxic ones.
G.B. APPEL

IM BOARD REVIEW .................................................................................... 141
A 37-year-old man with a chronic cough
When asked, he revealed that he had been diagnosed with human immunodeficiency virus infection but had not been taking his medication.
S.M. PATEL, S.S. PATEL, AND R. MYERS

CME DEPARTMENTS ............................................................................... 133

CME Calendar

Directions for taking CME tests online
To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.
Release date: February 1, 2012
Expiration date: January 31, 2013
