**From the Editor**

A guideline is like a prescription  
We should not worship the idol of guidelines alone, but neither should we ignore them and make decisions based only on anecdote and experience.  
B.F. Mandell

**The Clinical Picture**

A 47-year-old man with chest and neck pain  
While boarding a bus, a 50-pack-year smoker with chronic obstructive pulmonary disease heard popping sounds, which were followed by chest and neck pain. What do his radiographs show?  
M.C. Alraies, U.A. Khan, K. Shaheen, and A.H. Alraiyes

**The Clinical Picture**

Right upper-abdominal pain in a 97-year-old  
Physical findings and laboratory studies are normal. What is the cause of this patient’s pain?  
C-T Chao

**1-Minute Consult**

When do Raynaud symptoms merit a workup for autoimmune rheumatic disease?  
Clues to systemic disease include prolonged and painful attacks that can cause ulceration or gangrene. Other clues are older age at onset, male sex, and asymmetric involvement.  
S. Chatterjee

**Commentary**

The 2012 ACR guidelines for osteoarthritis: Not a cookbook  
Treatment approaches differ depending on the patient’s clinical presentation and on the preferences of the patient and the physician. Often, more than one approach is possible.  
R.W. Moskowitz  
CONTINUED ON PAGE 4
Advanced heart failure: 33
Transplantation, LVADs, and beyond
Patients with advanced heart failure far outnumber hearts available for transplantation. Mechanical devices are filling the gap.
R.C. STARLING

A short story 41
of the short QT syndrome
Short QT syndrome is a recently recognized cause of cardiac rhythm disorders, including sudden cardiac death. Though rare, it is worth thinking about.
H. AL MALULI AND A.B. MESHKOV

Human papillomavirus vaccine: 49
Safe, effective, underused
Because HPV is sexually transmitted, HPV vaccination has met with public controversy. A review of the data and the challenges.
X.W. JIN, L. LIPOLD, A. SIKON, AND E. ROME

Correction 40

Directions for taking CME tests online 63
To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.
