

TABLE OF CONTENTS

FROM THE EDITOR

To Phil, adieu with many thanks and much gratitude **745**

Phil Canuto, the executive editor of the *Cleveland Clinic Journal of Medicine* for almost 20 years, is retiring.

B.F. MANDELL

1-MINUTE CONSULT

Can an ARB be given to patients who have had angioedema on an ACE inhibitor? **755**

Proceed with caution. ARBs can also cause angioedema, but the benefit may outweigh the risk if the patient truly needs the drug.

P. SHARMA AND V. NAGARAJAN

COMMENTARY

The conundrum of explaining breast density to patients **761**

Several states have mandated that, after mammography, patients be informed if their breasts are dense. Explaining what this means is a challenge.

E.N. MARCUS AND M. YEPES

EDITORIAL

Dense breasts and legislating medicine **768**

As with accelerated drug approval, mandated disclosure of breast density has uncertain efficacy.

N. HO, J. KIM, AND V. PRASAD

IM BOARD REVIEW

Ascites in a 42-year-old woman **771**

She has had worsening shortness of breath, leg edema, and ascites for 4 months. What is the cause?

D. BANDYOPADHYAY, G.S. KOCHHAR, I. HANOUNEH, C. NIELSEN, AND D. BARNES

CME CREDIT REVIEW 777

Third universal definition of myocardial infarction: Update, caveats, differential diagnoses

Troponin levels are elevated in nearly everyone having a myocardial infarction—but also in many who are not. Hence, clinical judgment is needed.

D.M. TEHRANI AND A.H. SETO

CME CREDIT REVIEW 787

Antiplatelet therapy to prevent recurrent stroke: Three good options

Aspirin, dipyridamole, and clopidogrel are important parts of therapy to prevent recurrent stroke of atherosclerotic origin.

A.H. MANSOOR, M.T. MUJTABA, AND B. SILVER

DEPARTMENTS

Letters to the Editor 748

Readers comment on the FREEDOM trial (August 2013) and on electronic health records (July 2013).

CME Calendar 760

Directions for taking CME tests online 796

To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.

Release date: December 1, 2013

Expiration date: November 30, 2014
