From the Editor

Guidelines or a plea for help? 337
The US Preventive Services Task Force (USPSTF) recently published a guideline on the use of calcium and vitamin D supplements to prevent fractures in adults. I agree with two-thirds of their recommendations.
B.F. Mandell

Commentary

Should healthy people take calcium and vitamin D to prevent fractures? 341
What the US Preventive Services Task Force and others say
The USPSTF recently threw cold water on the use of these supplements, but the findings need to be put in context.
R.K. Dore

Review

Medication-assisted treatment of opiate dependence is gaining favor 345
Recovering addicts are more likely to avoid returning to the use of opiates if they participate in a program that includes taking maintenance doses of methadone or buprenorphine.
J.M. Jerry and G.B. Collins

Medical Grand Rounds

Managing severe acute pancreatitis 354
Progress in managing this disease has been disappointing, but clinicians are learning to recognize it and treat it supportively better than in the past.
T. Baron

The Clinical Picture

Stiff, numb hands 360
A 45-year-old woman presents to the emergency room with cramps and paresthesias in her hands and feet. What is going on?
K. Shaheen and S. Merugu

The patient has colon cancer, a repaired abdominal aortic aneurysm, and now, worsening abdominal pain.
M.A. KHAN, K.B. PATEL, R.J. MARCH, M. NOORUDDIN, AND M.D. BROWN

1-MINUTE CONSULT .......................................................... 370
Which patients may benefit from coronary artery calcification scoring?
Although no randomized trial has yet shown that the test improves outcomes, it is best used in asymptomatic patients at intermediate risk.
R.J. CHAUFFE AND D.E. WINCHESTER

EDITORIAL ................................................................................ 374
Does coronary artery calcification scoring still have a role in practice?
Despite more than 2 decades of use and data from hundreds of thousands of patients, the test remains poorly understood.
D. PHELAN AND M.Y. DESAI

REVIEW .................................................................................. 377
Evaluation and management of premature ventricular complexes
The diagnostic evaluation should include an assessment for structural heart disease and ambulatory Holter monitoring.
D.J. CANTILLON

DEPARTMENTS ........................................................................ 340
Letter to the Editor
Readers comment on the role of sleep apnea in resistant hypertension (February 2013).

CME Calendar .................................................................... 368
Directions for taking CME tests online
To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.
Release date: June 1, 2013
Expiration date: May 31, 2014

UPCOMING FEATURES

- Managing bleeding caused by the new oral anticoagulants
- Incidental ovarian cyst: When to reassure, reassess, refer
- Are we overtreating pneumonia?
- What is the preferred revascularization strategy for patients with diabetes?
- Should all patients with portal vein thrombosis be anticoagulated?
- Is pharmacogenetic testing needed when warfarin is prescribed?
