# TABLE OF CONTENTS

## FROM THE EDITOR

*It is not a ‘mini’-stroke, it is a call to action*  
Although patients may call transient ischemic attacks “mini-strokes,” there is nothing mini about their significance.  
**B.F. MANDELL**

## COMMENTARY

*Azithromycin and risk of sudden cardiac death: Guilty as charged or falsely accused?*  
We need not abandon this drug, but we should see if our patients have risk factors, and take precautions.  
**J.R. GIUDICISSI AND M.J. ACKERMAN**

## 1-MINUTE CONSULT

*Which lower-extremity DVTs should be removed early?*  
This controversial therapy is best considered in cases of proximal deep vein thrombosis in younger patients.  
**S.K. SHAH AND D.G. CLAIR**

## THE CLINICAL PICTURE

*Chronic itch on the upper back, with pain*  
An otherwise healthy man has had itchy, grayish-brown patches on his back for 2 years, characteristic of notalgia paresthetica.  
**S. VAÑO-GALVÁN, E GRILLO, M TRUCHUELO, AND P. JAÉN**

*Fever, dyspnea, and a new heart murmur*  
In cases of recurrent fever and a new heart murmur, infective endocarditis must always be considered.  
**G. JACKSON, C. CAMARGO, L.F. LING, V. KALAHASTI, AND C.M. RIMMERMAN**

REVIEW

Transient ischemic attack: Omen and opportunity

A transient ischemic attack (TIA) is often the precursor of stroke. As such, every TIA deserves to be taken seriously.

S. Sonni and D.E. Thaler

ADDRESSING DISPARITIES IN HEALTH CARE

Cardiovascular disease in women: Prevention, symptoms, diagnosis, pathogenesis

Notable sex differences exist in the underlying mechanisms, presentation, and response to aspirin, statins, and exercise stress.

S. Naderi and L.S. Cho

REVIEW

Biomarkers in the emergency workup of chest pain: Uses, limitations, and future

Cardiac biomarkers are only one piece of the clinical picture, albeit an important one.

W. Mosleh, H. Abdel-Qadir, and M. Farkouh

CME Calendar

Directions for taking CME tests online

To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.

Release date: September 1, 2013
Expiration date: August 31, 2014
