From the Editor

Return of the ‘pisse-mongers,’ 9
This time with data
Urinalysis may be the oldest surviving laboratory test. Both Hippocrates and Galen recognized its value.

B.F. Mandell

Commentary

New cholesterol guidelines: 11
Worth the wait?
An appraisal of the controversial new guidelines, with case scenarios illustrating their advantages and shortcomings.

C. Raymond, L. Cho, M. Rocco, and S.L. Hazen

The Clinical Picture

Deep T waves and chest pain 21
After 3 hours of chest pain, a 67-year-old man presented with deep symmetric T-wave inversions in the precordial leads, a prognostically significant finding.

M. Chadi Alraies, W. Aljaroudi, U.A. Khan, and A.H. Alraies

1-Minute Consult

Do all hospitalized patients 23
Need stress ulcer prophylaxis?
No. Only critically ill patients who meet specific criteria should receive it.

N. Eisa, F. Bazerbachi, A.H. Alraies, and M. Chadi Alraies

Im Board Review

An 85-year-old with muscle pain 27
When preventive therapy causes side effects, physicians face a dilemma.

D. Snipelisky and F. Stancampiano
