

TABLE OF CONTENTS

FROM THE EDITOR

The vaccine safety belt 330

Arguments against vaccination have acquired a libertarian tone, like the argument against compulsory wearing of seat belts.

B. F. MANDELL

THE CLINICAL PICTURE.....

Persistent back pain in a young woman 337

Spinal tuberculosis, or Pott disease, is still a common cause of back pain in parts of the world where the infection is rampant.

J. S. BANERJI

THE CLINICAL PICTURE.....

Corneal opacities in a man with chronic kidney disease 339

Effects of lecithin-cholesterol acyltransferase deficiency include coronary artery disease, renal disease, and corneal opacity.

O. IBRAHIM, L. AMAH, AND S. E. MACE

REVIEW

Vaccinating adults who are pregnant, older, or immunocompromised, or have chronic kidney disease 341

Certain populations have special vaccination needs and contraindications, which the authors review.

F. FARHAT AND G. WORTMANN

EDITORIAL

Vaccination: Special populations are not all the same 348

Guidelines exist, but so do uncertainties.

A. KHASNIS

Online Features

Access

Cleveland Clinic Journal of Medicine content is readily available to all and is free of charge at www.ccm.org. On your first visit, we will ask you to take a few minutes to register, but subsequent visits will be unencumbered except for an occasional request for your e-mail address when you visit using another device (eg, mobile phone, tablet).

Services

- Navigate quickly to articles in current and past issues via links on the home page and pull-down menus at the top of the page. Use the search function to find a specific article, or browse by topic or article type.
- Continuing medical education activities are accessible from article links and from a CME pull-down menu on the home page. Participation is free.
- Follow links on the home page to news, summaries of recent scientific meetings, and interactive quizzes.
- Click on the PDF symbol at the top of any online article to read, download, or print the article in PDF format.

Social Networking

To post a *CCJM* article to Facebook or Twitter, just click on the icon at the top of any online article.

CME CREDIT REVIEW
Improving medication safety during hospital-based transitions of care **351**

Patients being admitted to or discharged from the hospital risk harm from medication errors.

K.C. SPONSLER, E.B. NEAL, AND S. KRIPALANI

CME CREDIT REVIEW
Long-term management of liver transplant recipients: A review for the internist **361**

Internists are caring for a greater number of transplant recipients and managing their long-term problems.

D.H. ISSA AND N. ALKHOURI

CME CREDIT REVIEW
ST-segment elevation: Differential diagnosis, caveats **373**

Our first concern is myocardial infarction. However, several other conditions can also cause ST elevation.

E.B. HANNA AND D.L. GLANCY

DEPARTMENTS
Letters to the Editor **322**

Readers comment on enterovirus D-68 (January 2015), eosinophilic esophagitis (February 2015), the Patient Protection and Affordable Care Act (February 2015), and alcoholic hepatitis (March 2015).

CME calendar **331**

Correction **336**

A reference was omitted from the April 2015 article by Jin and colleagues, "Can the test for human papillomavirus DNA be used as a stand-alone, first-line screening test for cervical cancer?"

CME directions

Inside back cover

Upcoming Features
