

TABLE OF CONTENTS

FROM THE EDITOR

The fifth vital sign: 400

A complex story of politics and patient care

Times have changed, and the difficulties and complexities of trying to help patients with ongoing pain have increased.

B.F. MANDELL

COMMENTARY

Anticoagulation in dental surgery: 409

Is it rude to interrupt?

Anticoagulation should not be interrupted for dental surgery.

M.J. WAHL

THE CLINICAL PICTURE

Multiple linear subcutaneous nodules 414

A 34-year-old woman has an asymptomatic swelling on her foot that has been slowly growing for 15 years.

G.U. SAWATKAR, D. DE, U.N. SAIKIA, AND S. HANDA

THE CLINICAL PICTURE

Whiplash-shaped acute rash 417

The rash appeared suddenly 2 days after the patient ate Chinese food.

L. MAROÑAS-JIMÉNEZ, A. LOBATO-BEREZO, R. PIGEM, D. MENIS, AND S. PALENCIA-PÉREZ

1-MINUTE CONSULT

Should I suspect obstructive sleep apnea 419

if a patient has hard-to-control hypertension?

Yes. Obstructive sleep apnea is common and is associated with hypertension and resistant hypertension.

H.K. WALIA

1-MINUTE CONSULT

When does chest CT 423

require contrast enhancement?

It may be needed in cases of suspected cancer or thoracovascular disease.

C.P. PURYSKO, R. RENAPURKAR, AND M.A. BOLEN

REVIEW
Navigating pneumococcal vaccination in adults **427**

With two nonequivalent vaccines and different schedules for different groups, vaccination can be confusing.

A. PALLOTTA AND S.J. REHM

REVIEW
Total pancreatectomy and islet cell autotransplantation: Definitive treatment for chronic pancreatitis **435**

Most patients report less pain after this procedure, and many avoid overt diabetes.

K.M. ARCE, Y.K. LIN, T. STEVENS, R.M. WALSH, AND B.A. HATIPOGLU

REVIEW
Opioids for persistent pain in older adults **443**

Legitimate need must be balanced against the risks, especially in older patients.

M. GALICIA-CASTILLO

REVIEW
A guide to managing acute liver failure **453**

Transfer to intensive care, start specific treatment depending on the cause, and consider transplant.

T. SINGH, N. GUPTA, N. ALKHOURI, W.D. CAREY, AND I.A. HANOUNEH

REVIEW
Dietary and medical management of recurrent nephrolithiasis **463**

Some interventions, such as increasing fluid intake, apply to all patients, while some apply to those with specific types of stones.

S. SHAH AND J.C. CALLE

DEPARTMENTS
Letters to the Editor **406**

Readers comment on Wilson disease (February 2016), and cognitive bias and diagnostic error (November 2015).

CME Calendar **422**

CME Test Directions **472**
