DECEMBER 2017

Table of Contents

FROM THE EDITOR

To have not and then to have: A challenging immune paradox 912

The immune reactivation syndrome can occur when the immune system in an immunosuppressed patient with a partially controlled indolent infection is suddenly normalized.

B.F. MANDELL

THE CLINICAL PICTURE

Drug reaction or metastatic lung cancer? 914

Imaging shows nodules randomly distributed throughout both lungs, a paradoxical reaction to drug therapy.

H. HARA, H. UTSUMI, H. WAKUI, H. YANAGISAWA, M. HASHIMOTO, AND K. KUWANO

THE CLINICAL PICTURE

The Leser-Trélat sign 918

The patient presented with night sweats, dry cough, weight loss, and sudden onset of "itchy moles" on her back.

C. SARDON AND T. DEMPSEY

1-MINUTE CONSULT

Is it time to abandon fasting for routine lipid testing? 919

Yes. Most patients do not need to fast.

Z. FARUKHI AND S. MORA

IM BOARD REVIEW CME CREDIT

Big heart, small ring 925

A 58-year-old man has stopped wearing his wedding ring, and his wife suspects him of having an extramarital affair.

I. KRAVETS

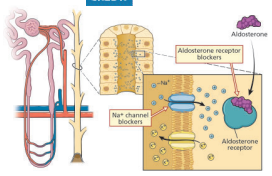
DECEMBER 2017

CONTINUED FROM PAGE 897

CME CREDIT REVIEW



Diagnosis and treatment of hyperkalemia 934

It is most common in patients with renal impairment, can be life-threatening, and requires a multidisciplinary approach.

B.F. PALMER AND D.J. CLEGG

CME CREDIT REVIEW

Diagnostic value of the physical examination in patients with dyspnea 943

How accurate are the signs of pneumonia, pleural effusion, COPD, and congestive heart failure?

R.A. SHELLENBERGER, B. BALAKRISHNAN, S. AVULA, A. EBEL, AND S. SHAIK

CME CREDIT CURRENT DRUG THERAPY

Pharmacotherapy for obesity: What you need to know 951

Weight-loss drugs are not magic pills, but they can help when used along with diet, exercise, and other lifestyle changes.

S. BERSOUX, T.H. BYUN, S.S. CHALIKI, AND K.G. POOLE, JR

EDITORIAL

It's time to consider pharmacotherapy for obesity 959

Consider using chronic weight-loss medications as adjunctive therapy if lifestyle and behavioral strategies are ineffective.

D.C. CETIN

DEPARTMENTS

CME Calendar 903

CME instructions 961

Upcoming Features

- Acute cardiorenal syndrome: A stepwise approach
- Reconciling medications for elderly patients
- Frailty and heart risk: A 2-way street
- Urine microscopy: Look for yourself
- PCI for stable angina: Point and counterpoint
- Female athlete triad: Who to screen, what to ask
- High care utilizers: Can we improve quality, reduce cost?
- Transient neurologic problems: A diagnostic approach
