

Online Features

Access

Cleveland Clinic Journal of Medicine content is readily available to all and is free of charge at www.ccjm.org. On your first visit, we will ask you to take a few minutes to register, but subsequent visits will be unencumbered except for an occasional request for your e-mail address when you visit using another device (eg, mobile phone, tablet).

Services

- Navigate quickly to articles in current and past issues via links on the home page and pull-down menus at the top of the page. Use the search function to find a specific article, or browse by topic or article type.
- Continuing medical education activities are accessible from article links and from a CME pull-down menu on the home page. Participation is free.
- Follow links on the home page to news, summaries of recent scientific meetings, and interactive quizzes.
- Click on the PDF symbol at the top of any online article to read, download, or print the article in PDF format.

Social Networking

To post a *CCJM* article to Facebook or Twitter, just click on the icon at the top of any online article.

MARCH 2017

TABLE OF CONTENTS

FROM THE EDITOR

Channeling the flow of medical information 178

Accessing information today is like drinking from a firehose. We need some kind of valve to adjust the flow.

B.F. MANDELL

THE CLINICAL PICTURE

Porcelain heart in a uremic patient 184

Constrictive pericarditis due to secondary hyperparathyroidism occurs in up to 4% of patients with end-stage renal disease.

H.-C. YANG, C.-H. LO, C.-C. CHEN, AND C.-C. WU

THE CLINICAL PICTURE

Disseminated molluscum contagiosum lesions in an HIV patient 186

The patient was diagnosed with HIV-related encephalopathy and disseminated *Mycobacterium tuberculosis* infection.

T. AZEVEDO, A. CATARINO, L. FERREIRA, F. BORGES, AND K. MANSINHO

THE CLINICAL PICTURE

Worsening migraine due to neurocysticercosis 196

When a woman with a history of migraine had new symptoms, MRI revealed a tapeworm scolex in her brain.

E.J. ELLIOTT AND E.J. LANDAKER

1-MINUTE CONSULT

Bleeding esophageal varices: Who should receive a shunt? 199

A transjugular intrahepatic portosystemic shunt can prevent repeated variceal bleeding and control refractory ascites.

G. RIFAI, Z. AKRAS, AND I.A. HANOUNEH

REVIEW

Update on viral hepatitis in pregnancy 202

Indications for treatment may be different from those in the general population. New treatments are available.

Z. SHAO, M. AL TIBI, AND J. WAKIM-FLEMING

REVIEW

Bedbugs: Helping your patient through an infestation **207**

Physicians are often at the forefront in the diagnosis and treatment of bedbug infestation.

O. IBRAHIM, U.M. SYED, AND K.J. TOMECKI

EDITORIAL

Bedbugs: Awareness is key **212**

Bedbugs are back, and they are everywhere. Not all who are bitten have reactions.

W.A. HIGH

REVIEW

Vulvovaginitis: Find the cause to treat it **215**

The cause is usually infectious, but noninfectious causes should also be considered, and differentiating them can be challenging.

O. GOJE AND J.L. MUNOZ

REVIEW

Staying afloat in a sea of information: Point-of-care resources **225**

We can refine our skills in accessing, sorting, and interpreting scientific evidence.

R. ANDREWS, N. MEHTA, J. MAYPOLE, AND S.A. MARTIN

REVIEW

Iodine deficiency: Clinical implications **236**

Requirements are higher in pregnant and lactating women. Risk is higher in vegans and those who are lactose-intolerant.

S. NIWATTISAIWONG, K.D. BURMAN, AND M. LI-NG

DEPARTMENTS

CME Calendar **179**

Letters to the Editor **180**

Readers comment on caring for international patients (November 2016) and on acid-base disorders (January 2017).

Corrections **214**

Errors occurred in: Mani S, Rutecki GW. A patient with altered mental status and an acid-base disturbance. *Cleve Clin J Med* 2017; 84:27–34 and in Leclerc K. Cardiopulmonary exercise testing: A contemporary and versatile clinical tool *Cleve Clin J Med* 2017; 84:161–168.

CME Instructions **245**

Upcoming Features

- Antibiotic stewardship: Why we must, how we can
- Maternal asthma: Triggers, treatments, outcomes
- Life after cancer: Primary care's role
- Cardiogenic shock: ECMO, LVADs, and beyond
- Let's treat *H pylori* like other infectious diseases
- PCI for stable angina—Why do we still do it?
- Designer estrogens: A range of options
- Chronic constipation: Causes and treatment
