

Online Features

Access

Cleveland Clinic Journal of Medicine content is readily available to all and is free of charge at www.ccjm.org. On your first visit, we will ask you to take a few minutes to register, but subsequent visits will be unencumbered except for an occasional request for your e-mail address when you visit using another device (eg, mobile phone, tablet).

Services

- Navigate quickly to articles in current and past issues via links on the home page and pull-down menus at the top of the page. Use the search function to find a specific article, or browse by topic or article type.
- Continuing medical education activities are accessible from article links and from a CME pull-down menu on the home page. Participation is free.
- Follow links on the home page to news, summaries of recent scientific meetings, and interactive quizzes.
- Click on the PDF symbol at the top of any online article to read, download, or print the article in PDF format.

Social Networking

To post a *CCJM* article to Facebook or Twitter, just click on the icon at the top of any online article.

TABLE OF CONTENTS

FROM THE EDITOR

Can a shared decision be wrong if made for the 'right' reasons? 90

Providing information alone is not enough; we need to understand the patient's biases, fears, and priorities.

B.F. MANDELL

THE CLINICAL PICTURE.....

Erythema ab igne 96

The patient had been using a heating pad daily, often for several hours at a time, to relieve his back pain.

T. SMITH III AND V.E. NAMBU DIRI

THE CLINICAL PICTURE.....

Gas under the right diaphragm 98

The patient was found to have volvulus and obstruction of the bowel.

H. MATSUURA AND H. HATA

THE CLINICAL PICTURE.....

Paraneoplastic acral vascular syndrome 101

The patient presented with a painful blue great toe, abdominal pain, and unintentional weight loss.

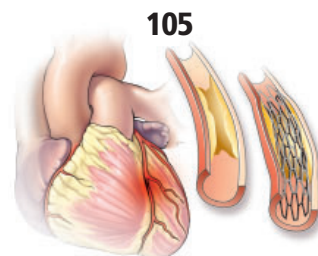

S. MAHARAJ, S. CHANG, K. SEEGOBIN, AND C. ISACHE

MEDICAL GRAND ROUNDS.....

PCI for stable angina: A missed opportunity for shared decision-making 105

Patients mistakenly believe that PCI saves lives. They need clear information to give informed consent.

M.B. ROTHBERG

EDITORIAL.....

Having the COURAGE to include PCI in shared decision-making for stable angina 124

In a select group, a PCI-first strategy does not reduce the risk of death, but it does relieve angina sooner.

U.N. KHOT

REVIEW

Medication management in older adults 129

Some drugs may become unnecessary or even dangerous as the patient ages. Periodic medication review is needed.

L.D. KIM, K. KONCILJA, AND C. NIELSEN

EDITORIAL

Finding balance: Optimizing medication prescribing in older patients 136

More than one-third of older adults in the United States take 5 or more medications. Consider *deprescribing*.

K.C. SPONSLER AND A.S. MIXON

CME CREDIT MEDICAL GRAND ROUNDS

Kidney transplant: New opportunities and challenges 138

Kidney transplant improves survival and long-term outcomes in patients with renal failure.

J. AUGUSTINE

CME CREDIT IM BOARD REVIEW

A 75-year-old with abdominal pain, hypoxia, and weak pulses in the left leg 145

Workup revealed the patient had both arterial and venous thrombosis. What was the cause?

M. SERHAL, N. EVANS, AND H.L. GORNIK

CME CREDIT REVIEW

Transient neurologic syndromes: A diagnostic approach 155

Diagnosing TIA, migraine, partial seizures, hypoglycemia, hyperventilation, transient global amnesia, and others.

J.R. ABBATEMARCO AND A.D. RAE-GRANT
