FROM THE EDITOR

How well do we understand calcium and vitamin D? 505

I do not believe we truly understand the ideal amount of dietary and supplemental calcium or vitamin D for a given patient.

B.F. MANDELL

THE CLINICAL PICTURE

Wolff-Parkinson-White pattern unmasked by severe musculoskeletal pain 507

WPW pattern can be asymptomatic, whereas the syndrome is characterized by symptomatic arrhythmias.

R. RAJ, N. SHAIKH, AND L. O'NEILL IV

THE CLINICAL PICTURE

Osmotic demyelination syndrome due to hyperosmolar hyperglycemia 511

Rapid correction of chronic hyponatremia can trigger this rare but life-threatening disorder.

T. HIROSAWA AND T. SHIMIZU

1-MINUTE CONSULT

What inpatient treatments do we have for acute intractable migraine? 514

Options: volume repletion, antiemetics, antiepileptics, NSAIDs, corticosteroids, and magnesium sulfate. Avoid opioids.

A.S. ALI AND M. STILLMAN

1-MINUTE CONSULT

When does *S aureus* bacteremia require transesophageal echocardiography? 517

TTE is a good starting point, but TEE is indicated in patients with a high pretest probability of endocarditis.

A.E. MIRRAKHIMOV, M.E. JESINGER, T. AYACH, AND A. GRAY

EDITORIAL

***S aureus* bacteremia: TEE and infectious disease consultation** 521

Staphylococcus aureus bacteremia demands further evaluation, as up to 25% of people who have it may have endocarditis.

S.J. REHM

1-MINUTE CONSULT

What should I address at follow-up of patients who survive critical illness? 523

Cognitive decline, psychiatric disturbances, and physical weakness can persist 1 year or longer.

D.M. GOLOVYAN, S.H. KHAN, S. WANG, AND B.A. KHAN

EDITORIAL

Critical care medicine: An ongoing journey 527

Although 70% of ICU patients survive hospitalization, the mortality rate 1 year after discharge may exceed 50%.

S.R. INSLER

CME CREDIT REVIEW

'Dry drowning' and other myths 529

Drowning is a common and often preventable cause of death, especially in children. But dry drowning is a myth.
