AUGUST 2019

Table of Contents

FROM THE EDITOR

Deciding when a picture is worth a thousand words and several thousand dollars 509

Physical examination is cheap but not highly reproducible. Imaging is expensive but may be more sensitive and specific.

B.F. MANDELL

THE CLINICAL PICTURE

Osteonecrosis of the femoral head with subchondral collapse 511

A 45-year-old woman had been taking corticosteroids long-term after organ transplant.

N.S. PIUZZI, H.K. ANIS, AND G.F. MUSCHLER

SMART TESTING

When does acute pyelonephritis require imaging? 515

Imaging is recommended for those at risk of complications.

M.E. LACY, N. SIDHU, AND J. MILLER

1-MINUTE CONSULT

Should we stop aspirin before noncardiac surgery? 518

It depends on the type of surgery and the reason the patient is taking aspirin.

A. PRABHAKARAN AND C. WHINNEY

EDITORIAL

Aspirin: 4,000 years and still learning 522

What we know about aspirin—and what we still need to learn.

K.C. CUMMINGS

COMMENTARY

Primary care: Practice meets technology 525

Technology has infiltrated all parts of our lives. Physicians need to adapt and adjust.

C.I. PRAVIA AND Y.M. DIAZ

EDITORIAL

Running in place: The uncertain future of primary care internal medicine 530

If we don't demand change, who will be there to take care of us when we grow old?

C. NIELSEN AND P. BATUR

SYMPTOMS TO DIAGNOSIS

An unusual cause of bruising 535

The coagulation assay, particularly the prothrombin time and aPTT, is key in initially assessing a bleeding abnormality.

T. ATIEH AND A. LICHTIN

REVIEW

Adults with autism spectrum disorder: Updated considerations for healthcare providers 543

Social support, community programs, and behavioral therapies can help. Caregivers may also need support.

C. SWETLIK, S.E. EARP, AND K.N. FRANCO

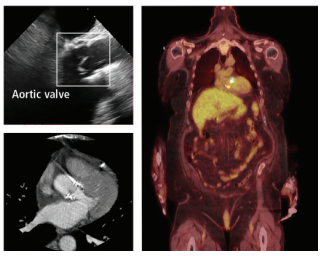
EDITORIAL

Where have all the children gone? Intentional communities for adults with autism 554

Children with ASD grow to be adults with ASD, with complex healthcare needs.

C.R. BRASS AND D.J. MANDELL

REVIEW



Infective endocarditis: Beyond the usual tests 559

Newer imaging tests are increasingly used as alternatives or adjuncts to echocardiography for selected patients.

N. MGBOJIKWE, S.R. JONES, T.M. LEUCKER, AND D.J. BROTMAN

DEPARTMENTS

Letters to the Editor 514

A reader raises questions about diabetic gastroparesis (April 2019).

CME Calendar 553

CME/MOC Instructions Inside back cover
