OCTOBER 2020

TABLE OF CONTENTS

FROM THE EDITOR

A sneaky vascular disease 581
Cholesterol embolization syndrome may provide insights into atherosclerotic disease.
Brian F. Mandell, MD, PhD

THE CLINICAL PICTURE

Verrucous plaques on the face, dysphagia, and limb weakness 587
An itchy bump on the upper lip rapidly grew and spread.
Kerry Hennessy, MD; Mahmoud Shorman, MD, MHA

THE CLINICAL PICTURE

Miliary tuberculosis in a patient with end-stage liver disease 590
Chest radiography showed patchy left basilar consolidation with subtle, diffuse interstitial opacities.
Victoria Poplin, MD; Brent Harbaugh, DO, MA; Matthias Salathe, MD; Nathan C. Bahr, MD, MA

1-MINUTE CONSULT

When is contrast needed for abdominal and pelvic CT? 595
The decision to use contrast depends on the diagnosis suspected.
Mark Radetic, MD; Robert DeVita, MD; John Haaga, MD

1-MINUTE CONSULT

Should we give triple therapy to patients with atrial fibrillation after percutaneous intervention? 599
Triple therapy is aggressive and carries high risks of bleeding and death.
Asim Kichloo, MD; Michael M. Aljadah, MD; Farah Wani, MD; Sindhura Ananthaneni, MD

COMMENTARY

Overcoming obesity: Weight-loss drugs are underused 602
Successful management of obesity requires a multifaceted approach.
Amjad Kanj, MD, MPH; Diane Levine, MD, FACP

SYMPTOMS TO DIAGNOSIS

Peripheral artery disease and unusual skin findings 605
A 68-year-old man was admitted because of worsening skin problems in his legs.
Aaron Andrew Heigaard Smith, MD; Erin Luxenberg, MD; Roberta Meyers, MD, MPH
