REVIEW

Autonomous sensory meridian response: Your patients already know, do you?
People are actively seeking it out as a type of complementary therapy.
Neha V. Reddy; Arya B. Mohabbat, MD, FACP

REVIEW

Optimal surveillance and treatment of renal and splenic artery aneurysms
Indications for repair are based on aneurysm location and risk factors for rupture.
Tom Kai Ming Wang, MBCHB, MD(res), FRACP; Milind Y. Desai, MD

REVIEW

Long-term consequences of prematurity
Survivors of premature birth may have adverse health effects later in life.
Cristina I. Pravia, MD; Merline Benny, MD

LETTERS TO THE EDITOR

COVID-19 coagulopathy
Skepticism of high-intensity prophylaxis for patients with D-dimer ≥ 3.0 μg/mL.
Anup Katyal, MD

LETTERS TO THE EDITOR

COVID-19 coagulopathy. In Reply
An attempt to balance the potential risks and benefits of intensified prophylaxis.
Simon R. Mucha, MD; Siddharth Dugar, MD; Keith McCrae, MD; Douglas Joseph, DO; John Bartholomew, MD; Gretchen L. Sacha, PharmD, RPh, BCCP; Michael Militello, PharmD, RPh, BCPS

LETTERS TO THE EDITOR

Assessing stable coronary artery disease
Differences between the coronary calcium score and CT coronary angiography.
Taher Modarressi, MD

LETTERS TO THE EDITOR

Assessing stable coronary artery disease. In reply
CT angiography is the appropriate test to exclude left main disease.
Vinayak Nagaraja, MD; A. Michael Lincoff, MD

LETTERS TO THE EDITOR

Dexamethasone or hydrocortisone in COVID-19?
Dexamethasone should be favored over hydrocortisone.
Chia Siang Kow; Syed Shahzad Hasan
