

# TABLE OF CONTENTS

**FROM THE EDITOR** .....

**Trying to get ahead of Alzheimer disease 517**

Sorting out patients destined to have Alzheimer disease remains a challenge.

Brian F. Mandell, MD, PhD

**COVID-19 CURBSIDE CONSULTS** .....

**SARS-CoV-2 and myocardial injury: Few answers, many questions 521**

What is the mechanism? Is this a distinct population? What are the treatment options?

Paul C. Cremer, MD

**COVID-19 CURBSIDE CONSULTS** .....

**Management of patients with COVID-19 in the MICU 526**

The main goals are to ensure caregiver safety and provide the highest quality care.

Chao Ping Wu, MD; Mani Latifi, MD; Eduardo Mireles-Cabodevila, MD

**THE CLINICAL PICTURE** .....

**5-Fluorouracil-induced encephalopathy 532**

A woman on chemotherapy for rectal cancer presents with mental status changes.

Yudai Yano, MD; Akira Kuriyama, MD, MPH

**THE CLINICAL PICTURE** .....

**Polypoid melanoma mistaken for verruca vulgaris 534**

Polypoid melanoma is highly aggressive and often misdiagnosed.

Andrea Tan, MD; Daniel Gutierrez, MD; Nooshin K. Brinster, MD; Jennifer A. Stein, MD, PhD

**COMMENTARY** .....

**Emerging blood-based biomarkers for Alzheimer disease 537**

A blood test for Alzheimer disease could help in drug development and patient care.

Lynn M. Bekris, PhD; James B. Leverenz, MD

**1-MINUTE CONSULT** .....

**Should women with HPV-related noncervical cancers be considered at high risk for cervical cancer? 541**

Yes. Lacking guidelines, close surveillance is prudent.

Suneela Vegunta, MD; Margaret E. Long, MD

**EDITORIAL** .....

**The HPV vaccine: Understanding and addressing barriers to vaccination 545**

Key steps include optimizing clinician-patient communication.

Pelin Batur, MD
