From the Editor

Trying to get ahead of Alzheimer disease  
Sorting out patients destined to have Alzheimer disease remains a challenge.

Brian F. Mandell, MD, PhD

COVID-19 Curbside Consults

SARS-CoV-2 and myocardial injury: Few answers, many questions  
What is the mechanism? Is this a distinct population? What are the treatment options?

Paul C. Cremer, MD

COVID-19 Curbside Consults

Management of patients with COVID-19 in the MICU  
The main goals are to ensure caregiver safety and provide the highest quality care.

Chao Ping Wu, MD; Mani Latifi, MD; Eduardo Mireles-Cabodevilla, MD

The Clinical Picture

5-Fluorouracil–induced encephalopathy  
A woman on chemotherapy for rectal cancer presents with mental status changes.

Yudai Yano, MD; Akira Kuriyama, MD, MPH

The Clinical Picture

Polypoid melanoma mistaken for verruca vulgaris  
Polypoid melanoma is highly aggressive and often misdiagnosed.

Andrea Tan, MD; Daniel Gutierrez, MD; Nooshin K. Brinster, MD; Jennifer A. Stein, MD, PhD

Commentary

Emerging blood-based biomarkers for Alzheimer disease  
A blood test for Alzheimer disease could help in drug development and patient care.

Lynn M. Bekris, PhD; James B. Leverenz, MD

1-Minute Consult

Should women with HPV-related noncervical cancers be considered at high risk for cervical cancer?  
Yes. Lacking guidelines, close surveillance is prudent.

Suneela Vegunta, MD; Margaret E. Long, MD

Editorial

The HPV vaccine: Understanding and addressing barriers to vaccination  
Key steps include optimizing clinician-patient communication.

Pelin Batur, MD
