**From the Editor**

**Why we publish The Clinical Picture**

Gout remains very common—and often undertreated.

Brian F. Mandell, MD, PhD

**The Clinical Picture**

**Cutaneous digital papules**

Tophi in the finger pads call for aggressive urate-lowering therapy.

Hiroyuki Yano, MD; Mitsuyo Kinjo, MD, MPH

**Pacemaker lead-induced venous thoracic outlet syndrome**

Acute arm swelling and pain after an airline flight and a missed anticoagulant dose.

Abhinav Sood, MBBS, MD; Daniel Benhuri, MD; Ujjwal Rastogi, MD; Ramesh M. Gowda, MD

**Severe chemical pneumonitis from tetrahydrocannabinol 'vaping' and 'dabbing'**

THC products have been implicated in an outbreak of lung injury.

Alisha Kamboj, MD, MBA; Tony Kamel, MD; Martin Burbank, MD; Melisa Esposito, MD; Russell Shaen Harvey, MD

**1-Minute Consult**

**How should you assess glycemic control if the hemoglobin A1c is inaccurate or uninterpretable?**

Hemoglobin A1c is the standard but is not perfect. Alternatives are available.

Wendy O. Henderson, MD; Mary H. Parker, PharmD, FASHP, FCCP, BCPS, BCCP; Bryan C. Batch, MD, MHS

**Symptoms to Diagnosis**

**Severe thrombocytopenia in a patient with otherwise asymptomatic COVID-19**

A young woman, seemingly healthy, presented with easy bruising.

Lauren M. Granat, DO, MS; Achintya D. Singh, MBBS, MD; Matthew Cortese, MD, MPH; Vicente Velez, MD, FACP, FHM; Alan Lichtin, MD

*Continued on page 68*
A 21-year-old woman with Ehlers-Danlos syndrome and persistent lightheadedness

She has a long history of lightheadedness upon standing, and it is getting worse.

Raed Qarajeh, MD; Laith A. Derbas, MD; Mouin Abdaallah, MD, MSc; Faraz Kureshi, MD, MSc

Reversal of direct oral anticoagulants: Highlights from the Anticoagulation Forum guideline

Clear instructions on how to manage DOAC-associated bleeding.

Haeshik S. Gorr, MD; Lucy Yun Lu, PharmD, MS; Eric Hung, PharmD, CACP, AE-C

Oral immunotherapy: The answer to peanut allergy?

Gradually increasing doses of the allergen induces tolerance.

Rachel M. Whitsel, APRN; Jaclyn A. Bjelac, MD; Ahila Subramanian, MD; Alice E. W. Hoyt, MD; Sandra J. Hong, MD

Cardiac surveillance for anti-HER2 chemotherapy

A more focused approach is advocated.

Patrick Collier, MD, PhD, FASE, FESC, FACC; Muzna Hussain, MD; Zoran B. Popovic, MD, PhD; Brian P. Griffin, MD

Precision treatment for metastatic non–small cell lung cancer: A conceptual overview

Targeted therapy has revolutionized treatment of patients with advanced solid tumors.

Tristan Lee, MD; Jeffrey M. Clarke, MD; Deepali Jain, MD; Sendhilnathan Ramalingam, MD; Vishal Vashistha, MD
