FROM THE EDITOR

Why we publish The Clinical Picture 69
Gout remains very common—and often undertreated.
Brian F. Mandell, MD, PhD

THE CLINICAL PICTURE

Cutaneous digital papules 73
Tophi in the finger pads call for aggressive urate-lowering therapy.
Hiroyuki Yano, MD; Mitsuyo Kinjo, MD, MPH

THE CLINICAL PICTURE

Pacemaker lead-induced venous thoracic outlet syndrome 75
Acute arm swelling and pain after an airline flight and a missed anticoagulant dose.
Abhinav Sood, MBBS, MD; Daniel Benhuri, MD; Ujjwal Rastogi, MD; Ramesh M. Gowda, MD

THE CLINICAL PICTURE

Severe chemical pneumonitis from tetrahydrocannabinol 77
‘vaping’ and ‘dabbing’
THC products have been implicated in an outbreak of lung injury.
Alisha Kamboj, MD, MBA; Tony Kamel, MD; Martin Burbank, MD; Melisa Esposito, MD; Russell Shaen Harvey, MD

1-MINUTE CONSULT

How should you assess glycemic control if the hemoglobin A1c is inaccurate or uninterpretable? 81
Hemoglobin A1c is the standard but is not perfect. Alternatives are available.
Wendy O. Henderson, MD; Mary H. Parker, PharmD, FASHP, FCCP, BCPS, BCCP; Bryan C. Batch, MD, MHS

SYMPTOMS TO DIAGNOSIS

Severe thrombocytopenia in a patient with otherwise asymptomatic COVID-19 86
A young woman, seemingly healthy, presented with easy bruising.
Lauren M. Granat, DO, MS; Achintya D. Singh, MBBS, MD; Matthew Cortese, MD, MPH; Vicente Velez, MD, FACP, FHM; Alan Lichtin, MD

SYMPTOMS TO DIAGNOSIS

A 21-year-old woman with Ehlers-Danlos syndrome and persistent lightheadedness
She has a long history of lightheadedness upon standing, and it is getting worse.
Raed Qarajeh, MD; Laith A. Derbas, MD; Mouin Abdallah, MD, MSc; Faraz Kureshi, MD, MSc

GUIDELINES TO PRACTICE

Reversal of direct oral anticoagulants: Highlights from the Anticoagulation Forum guideline
Clear instructions on how to manage DOAC-associated bleeding.
Haeshik S. Gorr, MD; Lucy Yun Lu, PharmD, MS; Eric Hung, PharmD, CACP, AE-C

REVIEW

Oral immunotherapy: The answer to peanut allergy?
Gradually increasing doses of the allergen induces tolerance.
Rachel M. Whitsel, APRN; Jaclyn A. Bjelac, MD; Ahila Subramanian, MD; Alice E. W. Hoyt, MD; Sandra J. Hong, MD

REVIEW

Cardiac surveillance for anti-HER2 chemotherapy
A more focused approach is advocated.
Patrick Collier, MD, PhD, FASE, FESC, FACC; Muzna Hussain, MD; Zoran B. Popovic, MD, PhD; Brian P. Griffin, MD

REVIEW

Precision treatment for metastatic non–small cell lung cancer: A conceptual overview
Targeted therapy has revolutionized treatment of patients with advanced solid tumors.
Tristan Lee, MD; Jeffrey M. Clarke, MD; Deepali Jain, MD; Sendhilnathan Ramalingam, MD; Vishal Vashistha, MD
