Patients with chronic abdominal pain can benefit from a multidisciplinary evaluation.  
John H. Rodriguez, MD, FACS

**The Clinical Picture**

**A cutaneous clue to HIV infection**  
A retired trucker presented with fever, cough, dyspnea, and a rash on his forehead.  
Stephen Chan, MD; Paul Aronowitz, MD

**The Clinical Picture**

**Not all wheezing is COPD**  
A missed diagnosis led to inappropriate referral for lung transplant.  
Vipul Patel, MD; Nikhil Madan, MD, FCCP

**Editorial**

**All that wheezes...**  
All that wheezes is not asthma, but it is airway obstruction of one kind or another.  
Aparna Bhat, MD; Rendell W. Ashton, MD

**The Clinical Picture**

**Anterior interosseous nerve palsy caused by Parsonage-Turner syndrome**  
A 58-year-old man presented with difficulty moving his left hand.  
Kosuke Ishizuka, MD; Kiyoshi Shikino, MD, PhD; Masatomi Ikusaka, MD, PhD
