Update in perioperative cardiac medicine 2021

In the April 2021 issue, in Cohn SL. Update in perioperative cardiac medicine 2021. *Cleve Clin J Med* 2021; 88(4):216–220, doi:10.3949/ccjm.88a.21014, in the fi nal paragraph, the sentence, "Until further data are available, the risk of chronic atrial fi brillation in patients with new-onset postoperative atrial fi brillation may be warranted only in patients with a thromboembolic risk above 1.5%…" should read as follows: "Until further data are available, the risk of chronic atrial fi brillation may be warranted only in patients with a thromboembolic risk above 1.5%…" should read as follows: "Until further data are available, the risk of chronic anti-coagulation in patients with new-onset postoperative atrial fi brillation may be warranted only in patients with a thromboembolic risk above 1.5%…" This has been corrected online.
