Anaphylaxis: Expanding our perspective
Anaphylaxis is not always the extreme scenario we learned about in medical school. There is a range of far milder allergic infusion reactions that are nonetheless anaphylaxis.
Brian F. Mandell, MD, PhD

1-Minute Consult

Does my hospitalized patient need an NPO-after-midnight order preoperatively?
Delays and postponements of surgical procedures are common, and NPO-after-midnight orders in these situations can result in prolonged periods without oral intake.
Tyler Chapman, DO; Elizabeth Sinz, MD, MEd; Brian McGillen, MD, FACP, SFHM

The Clinical Picture

Hypertrichosis and topical corticosteroid use
The xerotic dermatitis had resolved 2 years earlier, but the patient had continued to apply the medication.
Yuya Ando, MD; Sachiko Ono, MPH, PhD; Yosuke Ono, MD, PhD; Yoshinori Miura, MD, PhD

Review

Soft tissue sarcoma: Recognizing a rare disease
Awareness of the signs and symptoms ensures prompt referral to a sarcoma center for appropriate assessment and treatment to optimize outcomes.
Amir Hossain Gahanbani Ardakani, BSc, MBBS; Alex Woollard, BM, BSc, PhD, FRCS (Plast); Howard Ware, MBBS, FRCS (Tr&Orth); Panagiotis Gikas, MBBS Hons, MD (Res), PhD, FRCS (Tr&Orth)

Review

Extraosseous calcification in kidney disease
A review of the pathogenesis, presentation, diagnosis, and treatment of vascular and soft tissue calcification.
Korey Bartolomeo, DO; Xin Yee Tan, MD; Richard Fatica, MD

Upcoming Features

■ Evaluating breast cancer risk
■ When is testing needed for penicillin allergy?
■ Anemia of chronic kidney disease

Recurrent anemia in a patient with chronic lymphocytic leukemia

New episodes of anemia do not automatically imply disease progression, and each should be evaluated completely.

Sassine Ghanem, MD; Jason Gonsky, MD, PhD

Hypercalcemia and vitamin A: A vitamin to keep in mind

Vitamin A toxicity can affect bone resorption and hypercalcemia and should be explored in unexplained cases of parathyroid hormone-independent hypercalcemia.

Saif Munther Borgan, MD; Leila Zeinab Khan, MD; Vinni Makin, MD, FACE

Anaphylaxis: Highlights from the practice parameter update

The update addresses diagnostic criteria, treatment options, prevention of recurrences, and patient education on avoiding triggers and using self-injectable epinephrine.

Katherine N. Weller, MD; Fred H. Hsieh, MD

Changed your address? Not receiving your copies?

To receive *Cleveland Clinic Journal of Medicine*, make sure the American Medical Association has your current information. *Cleveland Clinic Journal of Medicine* uses the AMA database of physician names and addresses to determine its circulation. All physicians are included in the AMA database, not just members of the AMA. Only YOU can update your data with the AMA.

- If your address has changed, send the new information to the AMA. If you send the update by mail, enclose a recent mailing label. Changing your address with the AMA will redirect all of your medically related mailings to the new location.
- Be sure the AMA has your current primary specialty and type of practice. This information determines who receives *Cleveland Clinic Journal of Medicine*.
- If you ever notified the AMA that you did not want to receive mail, you will not receive *Cleveland Clinic Journal of Medicine*. If you wish to reverse that decision, simply notify the AMA, and you will again receive all AMA mailings.
- Please allow 6 to 8 weeks for changes to take effect.

To contact the American Medical Association:
- PHONE 800-621-8335
- FAX 312-464-4880
- E-MAIL dpprodjira@ama-assn.org
- US MAIL
  Send a recent mailing label along with new information to:
