FROM THE EDITOR ............................................................................................................... ..................

Celiac disease in the 'nonclassic' patient 327
Adherence to a strict gluten-free diet is not easy, and even strict adherence does not guarantee
relief of all symptoms. We need to be as certain as possible that trying the diet makes sense—and
that is the real challenge.
Brian F. Mandell, MD, PhD

THE CLINICAL PICTURE ...........................................................................................................................

Eruption of erythema after dieting 335
During the past 4 weeks, the patient had been increasing his exercise and was on a strict diet
for bodybuilding.
Li-wen Zhang, MD; Wen-ju Wang, MD; Tao Chen, MD, PhD; Rong-hua Xu, MD

THE CLINICAL PICTURE ...........................................................................................................................

Finger nodules: Tip of the gouty iceberg 337
Recurrent, dramatic flares are the cardinal symptom of gouty disease, but some patients
exhibit tophi on physical examination or imaging—without flares or pain.
Brian F. Mandell, MD, PhD

SMART TESTING ................................................................................................................. ...................

Serial serum lipase testing after the initial diagnostic workup for inpatients with acute pancreatitis: What is the evidence? 341
Beyond the initial diagnostic workup, the results of serial testing may be misleading, with the
potential for adverse effects on patient care and increases in healthcare spending.
Samantha Jill Magier, MD, MEng; Thiruvengadam Muniraj, MD, FRCP; Naseema Merchant, MBBS, FCCP, FACP, FHM

1-MINUTE CONSULT ...............................................................................................................................

Should urine antigen testing for Legionella pneumophila be ordered for all hospitalized patients with community-acquired pneumonia? 345
Testing is recommended if the pneumonia is severe, if there has been recent travel, and if there is
currently an outbreak of legionnaires disease.
Anna Cheek, MD; Ian Jackson, MD; Manasa Velagapudi, MBBS; Shraddha Narechania, MD, FCCP

1-MINUTE CONSULT ................................................................. 349

Celiac disease: Who should I test, and how? Jason Nasser, MD; Claire Jansson-Knodell, MD; Alberto Rubio Tapia, MD

First-degree relatives of patients with celiac disease and patients with dermatitis herpetiformis, type 1 diabetes mellitus, and autoimmune thyroid disease are among those for whom testing is advisable.

GUIDELINES TO PRACTICE ......................................................... 355

Guidelines for the management of trigeminal neuralgia Mun Seng Chong, MBBS, MD, FRCP; Anish Bahra, MBChB, MD, FRCP; Joanna M. Zakrzewska, BDS, MB BChir, MD, FDSRCS, FFDRCSI, FFPM RCA, FHEA

Care pathways for patients with trigeminal neuralgia vary widely. The most recent UK guidelines emphasize the need for evidence-based care plans for multidisciplinary management.

REVIEW .......................................................................................... 363

Measuring exhaled nitric oxide when diagnosing and managing asthma Payal Sen, MD; Sumita B. Khatri, MD; Vickram Tejwani, MD

The authors examine the role of this biomarker of airway inflammation and provide guidance for its appropriate use.

REVIEW .......................................................................................... 373

Deadly drug rashes: Early recognition and multidisciplinary care Valerie Jaroenpuntaruk, MD; Adam Gray, MD

An illustrated review of 4 severe drug rashes. Early recognition and prompt withdrawal of the causative agent are crucial.

LETTERS TO THE EDITOR ................................................................. 333

Chondrodermatitis nodularis helicis Li-wen Zhang, MD; Juan Wu, MD, PhD; Tao Chen, MD, PhD

In Reply: Chondrodermatitis nodularis helicis Maggie So, MD, FACP; Randall S. Edson, MD, MACP, FIDSA
