A tale of scale: Corticosteroids and pustular psoriasis **140**

Guidelines and textbooks have recommended caution when using and withdrawing corticosteroids in patients with psoriasis, yet strong evidence that defines this association is hard to come by.

Brian F. Mandell, MD, PhD

THE CLINICAL PICTURE.....

Steroid use triggers severe psoriatic reaction **147**

After tapering prednisone, the patient developed a circular plaque bordered with pustules superimposed on erythematous skin.

CME MOC

Medical management of benign prostatic hyperplasia

163

The goal is to maximize quality of life and minimize “bothersome” symptoms. Choices about medical therapy are guided by indication, effectiveness, side effects, as well as patient preference.
